Reporting of Bird Sightings

Documentation of bird sightings is the basis for the "Seasonal Status and Abundance Chart" and "Species Locator" found in this Guide. It is important that birders continue to record their observations and to make them available for use in the production of new checklists as well as for publications such as this one. Calgary area records since the 1970s are stored at a central location and are readily accessible to researchers.

A sample form for reporting unusual sightings has been included for your guidance and use. You may copy this or obtain blank forms (together with copies of the CFNS Bird Record Sheet for regularly sighted species) by contacting:

City of Calgary
Inglewood Bird Sanctuary #63
PO Box 2100, Station M
Calgary, Alberta, T2P 2M5

Telephone: (403) 237-8821

When reporting an unusual sighting, as well as the completed form, please enclose your original field notes (or a photocopy of them) and a detailed sketch. This should indicate shape, plumage characteristics and any unique features. A photograph or colour slide would be welcomed for rare species.
