NOTES SECTION: (attach separate sheet if needed).

* On Bruce Lake

** this could potentially be a pretty decent-sized breeding colony although I don't know if cattle will be grazing in here or not. Only a large meadow on north side of road. Meadow begins just east of first road east of Railway Slough in the Arrowana Sloughs area. I estimate at least 20 birds ~~[illegible]~~ in this meadow.

NOTES SECTION: (attach separate sheet if needed).

Col 1 - I heard the distinctive bubbly call of a male Bobolink overhead. I did see it through my 7X42 binoculars briefly. The entirely black underbody contrasted with the lighter underwings. I have considerable experience with Bobolinks in southern Ontario

NOTES SECTION: (attach separate sheet if needed).

Col 1 Sandhill Crane was standing in field with the Canada Geese. The Franklin's Gulls probably totalled 600, but I have reduced the number to 500 since the sheet MSC 9 Column 2 already lists 100 Franklin's Gulls. These then are additional previously uncounted birds

We also saw a wild Goose, either Ross' or Snow but couldn't determine dimension as it flew away, by itself.
