Bird Record Sheet

ENTERED May 23 RD

PROOFED June 1/93 OD 8K

Please print information legibly.

- GIVE EXACT LOCATION. Fill in a new column for each location visited.
- List the number of each species seen at each location by sex and/or age where they are determinable, otherwise list total number.
- CIRCLE all nesting records and elaborate in "Notes Section" at the end.
- Provide more details in "Notes Section" on species marked with an ASTERISK '*' (ie: field marks, habitat, voice, behavior).

NOTES SECTION: (attach separate sheet if needed).

Col 1 - Owl sitting on power pole. Temperature 22°F, bare ground, wind NE at 20 mph

Col 2 - Owls sitting in poplar tree.

Col 3 - 1 hour daylight (pre-dawn), Owl sitting on TV antenna. Played tape. Answered. Flew to power pole about 100 feet from me. After more taped calls it flew low over me (10 to 15 ft) and flew into evergreens 1 block away

Please

C.F.N.S.

Bird Record Sheet

Please print information legibly.

- GIVE EXACT LOCATION. Fill in a new column for each location visited.
- List the number of each species seen at each location by sex and/or age where they are determinable, otherwise list total number.
- CIRCLE all nesting records and elaborate in "Notes Section" at the end.
- Provide more details in "Notes Section" on species marked with an ASTERISK '*' (ie: field marks, habitat, voice, behavior).

SEND TO: C.F.N.S. - Bird Records
P.O. BOX 981
Calgary, Alberta T2P 2K4

NOTES SECTION: (attach separate sheet if needed).

Col 1 - Owls sitting approximately ¼ mile apart about the middle of Kehe Lake on the ice. 35°F wind SW @ 40mph

Col 2 - Owls in 2 spruce trees about 20 feet apart. 40°F, cloudy, wind NW at 30mph

Col 3 - heard hooting from my residence. Drove up to old Aux. Hospital site (well-treed) Played taped call. Both flew near, then one came right up to truck & veered away landing in tree. One a loud hoot and the other a soft hoot - Still daylight 36°F wind SE at 25mph. No snow

NOTES SECTION: (attach separate sheet if needed).

Col 1 - Owl flushed from edge of road as we approached Stirling Lake parking area. Flew to nearby fence post. Wind SE at 20 mph. Heavy cloud. Drizzle. Temp 56°F.

Col 2 - Crows pursued owl from tree to tree. Owl had rock dove in one foot and was harrassed by crows and robins as it sat eating the rock dove. 74°F.

Col 3 - Owl sitting in large poplar tree on deserted farm. 44°F wind NW at 50 mph

NOTES SECTION: (attach separate sheet if needed).

Col 1 All three hawks harrassed the owl. As we approached the harriers left but the falcon continued to divebomb. Falcon would sit on irrigation system wheel, owl would fly a few hundred yards, falcon would attack. This took place at 3 sites. Wind NW at 50 mph. Temperature 46°F

Col 2 - Owl in large poplar about 100 ft from farm house. Wind 15 mph from NW. Temp 45°F

Col 3 - Owl sitting in ash tree about 100 ft from barn + corrals. House cat walked by. Owl watched ~~from~~ cat, slowly turning head to follow cat. Cat sit ft. from owl. Calm, heavy low overcast 28°F

edited by R.D. DICKSON

SEND TO: C.F.N.S. - Bird Records
P.O. BOX 981
Calgary, Alberta T2P 2K4

NOTES SECTION: (attach separate sheet if needed).

Col 1 - Sitting on fence post, flew into coulee as we drove up.

Col 2 - Sitting about 12 feet apart in a large tree. Wind SW at 25 mph, Same location as on May 24 1992.

Col 3 - Sitting in poplar tree. Wind SW gusting to 60mph 5°F

C.F.N.S.

Bird Record Sheet

Please print information legibly.

- GIVE EXACT LOCATION. Fill in a new column for each location visited.
- List the number of each species seen at each location by sex and/or age where they are determinable, otherwise list total number.
- CIRCLE all nesting records and elaborate in "Notes Section" at the end.
- Provide more details in "Notes Section" on species marked with an ASTERISK '*' (ie: field marks, habitat, voice, behavior).

Northern Mockingbird * On June 3 there was a Northern Mockingbird in our yard. When I walked through the trees in the morning this bird flew out to a post along the trees. It flew ahead of me, so I went to the house for my spotting scope. I got within 30 ft. of it as it sat on a post in the open. It was medium-gray on the back. Its wings were darker gray, with white wing bars. The breast was very light gray & under tail coverts were white. The tail was dark and quite long. It would raise its long tail, as it sat on the posts. When it flew there was a large white patch on the top of each wing and white outer tail feathers. The beak was black, with a hint of a curve on the upper mandible. The beak was fairly long, about 3/4" long. It had dark legs. It had light eyes. Twice it flew from the post to the ground to catch something. It flew into [illegible] particularly wary. As I left

DESCRIPTION: Write a detailed description. If you are not familiar with all of the terms used to describe a bird see your field guide topography page and try to describe each part of the unusual bird. Get as much information down as possible as to shape, colour, patterns, unique features, etc. **SKETCH** the bird and show as much detail as possible.

Weather / Behaviour / Habitat description

It seems unusual to assume that the Towhee is one of a pair that nested in one spot last summer, or one of three prospects. All of them came to the feeder quite regularly during the summer and fall, and then one suddenly stopped on when the others went south in the ~~fall~~ September.

During the first winter storm it took shelter in the doorway of the dog house, and I'm pretty sure it spent the night in there a few times. Later it slept and spend most of the day, under a large pampas bush about a hundred feet away, where the ground was free of snow. Several times a day it would come down to the dog house to feed. It never came to the feeder daily, but I kept the snow knocked off a patch of ground in front of the ~~bird~~ dog house and spread bird seed for it there. I used the same commercial bird seed mixture they had eaten in the feeder all summer and it apparently supplied the requirement of needed.

During the coldest weather it didn't move around at all. Light feeding it would fly quickly back to the pampas bush and disappear immediately. It avoided the snow and avoided venturing out at as far as possible. After other feeding, it would squat as to cover its feet. It was very wary and wild, and I seldom saw it between its brief feeding periods.

Now that the weather is warmer and the snow mostly gone, it moves about in the hedges and trees and the spread bush still begins the same feeding pattern.

The dog house is up against a shed on the north side, and there are clothesline and barequna bushes close up to it on the south side. Below it down to feed, the Towhee also is fine under these fruit, before swooping down to feed on the ground.

CHECK-LIST OF THE BIRDS OF THE CALGARY REGION

FIFTH EDITION, REVISED JANUARY 1986

Compiled by W. W. Smith, D.M. Collister, H.W. Pinel, C.R. Wershler, and R.M. Wershler

DATE 11 July '92 TIME 1230-330 WEATHER Sunny T

LOCALITY WYNDHAM Park

OBSERVER(S) MARY Cowlin / Pat Hoong

This list comprises 330 species, including 207 nesting species, which have been recorded for the area within 50 miles of the city of Calgary, Alberta. Names follow the A.O.U. Check-list of North American Birds (Sixth Edition, 1983), and have been updated as in *Auk* 102: 680-686 (1985).

Species marked with an asterisk (*) definitely nest in the area, while those designated by a cross (+) formerly nested.

The occurrence and abundance of the different bird species was based on the judgement of the compilers. Unless otherwise indicated, the migratory and summer abundance; and/or the spring and fall migratory abundance are the same. The occurrence and abundance of each species is indicated by letters as follows:

Column 1 - Seasonal Occurrence

R - Permanent Resident
I - Introduced Resident
S - Summer Resident or Visitor
M - Migrant
  sM - Spring Migrant
  fM - Fall Migrant
W - Winter Visitor
A - Accidental. Recorded, but due to normal range not expected to occur again.

Column 2 - Abundance

Occurring in such numbers that an experienced observer at the appropriate time and place might identify in a single day the following:
A - Abundant - Over 500
C - Common - 101 to 500
F - Fairly Common - 26 to 100
U - Uncommon - 6 to 25
S - Scarce - 1 to 5
R - Rare - Known from a single or occasional record. Not necessarily recorded every year
E - Erratic - Numbers fluctuate greatly from season to season or year to year.

Bird Record Sheet

Please print information legibly.

- o GIVE EXACT LOCATION. Fill in a new column for each location visited.
- o List the number of each species seen at each location by sex and/or age where they are determinable, otherwise list total number.
- o CIRCLE all nesting records and elaborate in "Notes Section" at the end.
- o Provide more details in "Notes Section" on species marked with an ASTERISK '*' (ie: field marks, habitat, voice, behavior).

Bird Record Sheet

Please print information legibly.

- GIVE EXACT LOCATION. Fill in a new column for each location visited.
- List the number of each species seen at each location by sex and/or age where they are determinable, otherwise list total number.
- CIRCLE all nesting records and elaborate in "Notes Section" at the end.
- Provide more details in "Notes Section" on species marked with an ASTERISK '*' (ie: field marks, habitat, voice, behavior).

Bird Record Sheet

Please print information legibly.

- GIVE EXACT LOCATION. Fill in a new column for each location visited.
- List the number of each species seen at each location by sex and/or age where they are determinable, otherwise list total number.
- CIRCLE all nesting records and elaborate in "Notes Section" at the end.
- Provide more details in "Notes Section" on species marked with an ASTERISK '*' (ie: field marks, habitat, voice, behavior).

Bird Record Sheet

Please print information legibly.

- o GIVE EXACT LOCATION. Fill in a new column for each location visited.
- o List the number of each species seen at each location by sex and/or age where they are determinable, otherwise list total number.
- o CIRCLE all nesting records and elaborate in "Notes Section" at the end.
- o Provide more details in "Notes Section" on species marked with an ASTERISK '*' (ie: field marks, habitat, voice, behavior).

Bird Record Sheet

Please print information legibly.

- GIVE EXACT LOCATION. Fill in a new column for each location visited.
- List the number of each species seen at each location by sex and/or age where they are determinable, otherwise list total number.
- CIRCLE all nesting records and elaborate in "Notes Section" at the end.
- Provide more details in "Notes Section" on species marked with an ASTERISK '*' (ie: field marks, habitat, voice, behavior).

SUBMITTER: Ray M. Weatherter

ADDRESS: 8254 Edgebrook Dr NW Calgary

PHONE: 239-4679

SEND TO: C.F.N.S. - Bird Records
P.O. BOX 981
Calgary, Alberta T2P 2K4

NOTES SECTION: (attach separate sheet if needed).

Col 1 Swainson's Hawk - 1 (last one observed in '82)

Col 2 House Finch - 10 (singing from a spruce tree at 103 Silverwest Crescent NW) - Silver Springs - Also got good looks - call note like a House Sparrow. Very familiar with this species from the U.S. and B.C.

Col 3 [illegible] (check [illegible] for)

C.F.N.S.

Bird Record Sheet

Please print information legibly.

- GIVE EXACT LOCATION. Fill in a new column for each location visited.
- List the number of each species seen at each location by sex and/or age where they are determinable, otherwise list total number.
- CIRCLE all nesting records and elaborate in "Notes Section" at the end.
- Provide more details in "Notes Section" on species marked with an ASTERISK '*' (ie: field marks, habitat, voice, behavior).

Bird Record Sheet

Please print information legibly.

- GIVE EXACT LOCATION. Fill in a new column for each location visited.
- List the number of each species seen at each location by sex and/or age where they are determinable, otherwise list total number.
- CIRCLE all nesting records and elaborate in "Notes Section" at the end.
- Provide more details in "Notes Section" on species marked with an ASTERISK '*' (ie: field marks, habitat, voice, behavior).

SEND TO: C.F.N.S. - Bird Records
P.O. BOX 981
Calgary, Alberta T2P 2K4

NOTES SECTION: (attach separate sheet if needed).

[illegible]

C.F.N.S.

Bird Record Sheet

Please print information legibly.

- GIVE EXACT LOCATION. Fill in a new column for each location visited.
- List the number of each species seen at each location by sex and/or age where they are determinable, otherwise list total number.
- CIRCLE all nesting records and elaborate in "Notes Section" at the end.
- Provide more details in "Notes Section" on species marked with an ASTERISK '*' (ie: field marks, habitat, voice, behavior).

PHONE: 239-4679

SEND TO: C.F.N.S. - Bird Records
P.O. BOX 981
Calgary, Alberta T2P 2K4

NOTES SECTION: (attach separate sheet if needed).

col 1 Tundra Swan - 10+ (prob. more - flew over us while owling at Belly River in the evening) - calling

col 3 Trumpeter Swan - 7 (6 ad, 1 im) - waterton Lks at Maskinonge - early, like the previous species

Rosy Finch - 30+ Hepburn's race in large flock of 250+ Rosy Finches at Cameron Falls

[redacted] (with Rosy Finches at Cameron Falls), 2 (up Cameron Lake Rd)

C.F.N.S.

Bird Record Sheet

ENTERED July 18/94 JEK

PROOFED July 19/94 DBP

Please print information legibly.

- GIVE EXACT LOCATION. Fill in a new column for each location visited.
- List the number of each species seen at each location by sex and/or age where they are determinable, otherwise list total number.
- CIRCLE all nesting records and elaborate in "Notes Section" at the end.
- Provide more details in "Notes Section" on species marked with an ASTERISK '*' (ie: field marks, habitat, voice, behavior).

RECORD FORM
FOR
UNUSUAL BIRD SIGHTINGS

ENTERED July 25/94 ZEK
PROOFED Aug 2'94 OD 97

Please enclose original field notes or copy of notes. Please delay reference to books until sketches and description complete.

Species: Iceland Gull Date: April 13/92
Number: 1 Age: adult Sex: ?
Locality (Exact information if possible): Inglewood Bird Sanctuary – Calgary

Time: 1345 h Length of time observed: 45 minutes
Observer: Ray M. Wershler
Other Observers:
Who first saw bird?:
Who first identified bird?:
Optical equipment used: Bushnell Custom 7X35 binoculars, Bausch + Lomb Discoverer telescope 15X60
Distance to bird: 50 metres
Weather/Light conditions: Sunny, good light angle.
Was the bird photographed?: No
Comparison species present: Ring-b, Calif, Herring Gulls
Experience with the species: Have seen on a couple of occasions
Voice and /or call notes: None
Was a field guide used while the bird was under observation?: No If so how do you think it might have influenced your decision?:
Habitat discussion : Gravel bar in river
Behavior: Sitting on bar, flying briefly, swimming
Are you 100% certain of the identification?: Yes Are others 100% certain:
How were similar species eliminated?: The only similar gulls are the Glaucous Gull + Thayer's Gulls.

This bird was much smaller + more round-headed than the many Glaucous Gulls that I've seen. The wings extended past the tail while sitting + swimming. Also had a small bill.

The bird was lighter than Thayer's Gull on the mantle and only showed a hint of brownish on the wings. Tips of the wings were white, after the brownish.

920567

DESCRIPTION: Write a detailed description. If you are not familiar with all of the terms used to describe a bird see your field guide topography page and try to describe each part of the unusual bird. Get as much information down as possible as to shape, colour, patterns, unique features, etc. SKETCH the bird and show as much detail as possible.

Calgary, Alberta T2P 2K4

NOTES SECTION: (attach separate sheet if needed).

X col 1+2 Herring Gull - totals by Wayne W. Smith

Ring-billed Gull - 1 adult Kumlien's - seen sitting + in flight (see unusual record form)

col 2 Peregrine Falcon - 1 adult - dove at a flock of ~~[illegible]~~ by the river

Glaucous Gull - 2 adults - one larger than the other & very large-billed + large-headed.

C.F.N.S.

Bird Record Sheet

Please print information legibly.

- GIVE EXACT LOCATION. Fill in a new column for each location visited.
- List the number of each species seen at each location by sex and/or age where they are determinable, otherwise list total number.
- CIRCLE all nesting records and elaborate in "Notes Section" at the end.
- Provide more details in "Notes Section" on species marked with an ASTERISK '*' (ie: field marks, habitat, voice, behavior).

Bird Record Sheet

Please print information legibly.

- o GIVE EXACT LOCATION. Fill in a new column for each location visited.
- o List the number of each species seen at each location by sex and/or age where they are determinable, otherwise list total number.
- o CIRCLE all nesting records and elaborate in "Notes Section" at the end.
- o Provide more details in "Notes Section" on species marked with an ASTERISK '*' (ie: field marks, habitat, voice, behavior).

RECORD FORM

FOR

UNUSUAL BIRD SIGHTINGS

ENTERED July 25/94 DR K

PROOFED Aug 9 '94 CR DY

Please enclose original field notes or copy of notes. Please delay reference to books until sketches and description complete.

Species: Tufted Duck Date: May 3 + 4/92

Number: 1 Age: adult Sex: ♂

Locality (Exact information if possible): McElroy's slough on Inverlake Rd. just across TCH from Cheakamus Lk.

Time: 1900h / 1545h Length of time observed: 1 hr / 1 3/4 hr

Observer: Ray M. Wershler

Other Observers: Wayne Smith, Michael Harrison

Who first saw bird?: John Riddell - May 3 (a.m.) / Ray Wershler

Who first identified bird?: John Riddell / Ray Wershler

Optical equipment used: Bushnell Custom 7X35 binos, discoverer telescope 15-60X

Distance to bird: 250 metres May 3 / 75 metres May 4

Weather/Light conditions: Good

Was the bird photographed?: Not by us

Comparison species present: Ring-necked Duck, Lesser Scaup

Experience with the species: None

Voice and /or call notes: N/A

Was a field guide used while the bird was under observation?: No If so how do you think it might have influenced your decision?:

Habitat discussion : open water

Behavior: diving on a regular basis with other diving ducks

Are you 100% certain of the identification?: Yes Are others 100% certain: Yes

How were similar species eliminated?: The bird had immaculate white sides up to the dark neck + back. The bird also had a round head and no gray on sides eliminating Ring-n. Duck. The black back eliminates the scaup. The diagnostic feature, though, was the crest on the male. All other species can be eliminated.

920575

DESCRIPTION: Write a detailed description. If you are not familiar with all of the terms used to describe a bird see your field guide topography page and try to describe each part of the unusual bird. Get as much information down as possible as to shape, colour, patterns, unique features, etc. SKETCH the bird and show as much detail as possible.

- Rounded head
- immaculate white sides
- black back
- crest on back of head (tuft)

Signature: Ray Ulrsher

Address: 8254 Edgebrook Dr NW Calgary

Date prepared: Jan 17/94 (from original field notes taken May 3+4/92)

Telephone: 239-4679

Tufted duck also on unusual sighting sheet which I sent over for May 3rd

Bird Record Sheet

Please print information legibly.

- GIVE EXACT LOCATION. Fill in a new column for each location visited.
- List the number of each species seen at each location by sex and/or age where they are determinable, otherwise list total number.
- CIRCLE all nesting records and elaborate in "Notes Section" at the end.
- Provide more details in "Notes Section" on species marked with an ASTERISK '*' (ie: field marks, habitat, voice, behavior).

NOTES SECTION: (attach separate sheet if needed).

ed: [redacted] - 10+ (made 13 observations of at least 10 penguins on the west + south sides of Beaufort
LK - 1 ad tundrius, 3 ad anatum, 1 sub-ad anatum, 5+ imm anatum - saw up to 3 birds
at a time on 2 occasions)
Purple Martin - 10♂ (in Tofield) [redacted] (all winter plumage) - west shore
Smith's Longspur - 300++ (could have been many more - in fields near the shore on the west side of the
lake - they were singing like crazy and giving us great close-up looks. Nat'l Geog
states that this bird only sings on the breeding grounds - obviously not true. They were
in one large flock without any other longspurs. In short-grazed grassland.

SUBMITTER: Ray M. Wershler

ADDRESS: 8254 Edgebrook Drive NW Calgary

PHONE: 239-4679

SEND TO: C.F.N.S. - Bird Records
P.O. BOX 981
Calgary, Alberta T2P 2K4

NOTES SECTION: (attach separate sheet if needed).

wd 1 Harlequin Duck - 9 (flock) on southern shore - 8 winter plumage, 1 summer plumage

C.F.N.S.

Bird Record Sheet

Please print information legibly.

- GIVE EXACT LOCATION. Fill in a new column for each location visited.
- List the number of each species seen at each location by sex and/or age where they are determinable, otherwise list total number.
- CIRCLE all nesting records and elaborate in "Notes Section" at the end.
- Provide more details in "Notes Section" on species marked with an ASTERISK '*' (ie: field marks, habitat, voice, behavior).

SUBMITTER: Ray M. Wershler

ADDRESS: 8254 Edgebrook Drive NW Calgary

PHONE: 239-4679

SEND TO: C.F.N.S. - Bird Records
P.O. BOX 981
Calgary, Alberta T2P 2K4

NOTES SECTION: (attach separate sheet if needed).

col 3 Why put asterisk by Sh Dowitcher? - in some areas of the province where alkali sloughs dominate they are very common, much more so than LB Dowitcher.

col 1 Ross' Goose - at least 10 - could have been many more in with the Snow Geese

col 2 Am. Avocet - nest with 4 eggs @ Metiskow Lake

Western Sandpiper - 1

C.F.N.S.

Bird Record Sheet

Please print information legibly.

- o GIVE EXACT LOCATION. Fill in a new column for each location visited.
- o List the number of each species seen at each location by sex and/or age where they are determinable, otherwise list total number.
- o CIRCLE all nesting records and elaborate in "Notes Section" on species marked with an ASTERISK '*' (ie: field marks, habitat, voice, behavior).

PROOFED May 16 1950 DHE

Please enclose original field notes or copy of notes. Please delay reference to books until sketches and description complete.

Nesting record

Species: Northern Pygmy-Owl Date: May 14/92 & June ~~14~~ 5/6

Number: 2 Age: adult Sex: male & Female

Locality (Exact information if possible): Livingston Falls campground (on Sec Hwy 940) — Site #21

Time: 9 pm Length of time observed: 20 min.

Observer: Mairi P. Babey / Joel P. Duncan

Other Observers:

Who first saw bird?:

Who first identified bird?:

Optical equipment used:

Distance to bird: 20 ft.

Weather/Light conditions: pre-dusk

Was the bird photographed?:

Comparison species present:

Experience with the species:

Voice and /or call notes:

Was a field guide used while the bird was under observation?: ___ If so how do you think it might have influenced your decision?:

Habitat discussion : See over.

Behavior:

Are you 100% certain of the identification?: Yes Are others 100% certain:

How were similar species eliminated?:

920585

DESCRIPTION: Write a detailed description. If you are not familiar with all of the terms used to describe a bird see your field guide topography page and try to describe each part of the unusual bird. Get as much information down as possible as to shape, colour, patterns, unique features, etc. SKETCH the bird and show as much detail as possible.

May 14, 9:00pm

We heard a N. Pygmy-Owl calling & tracked it down to Site 21, in the campground. The owl flew into 2 different pine trees, before alighting about 20' up in a pine. It continued to hoot. We observed that it had a good-sized Vole in its talons.

After about 10 minutes Another owl was observed looking out of a hole ~12 ft high in a pine tree nearby (east-facing)

The 1st owl continued to hoot & the 2nd flew out of the hole & headed South through the trees, followed by the owl with the rodent in its talons.

May 15 → dawn : Owls heard hooting again, but we did not investigate.

Because of the time of year, behavior, & food presentation we feel these owls are nesting at this site.

June 5/92 One owl observed peering out of hole at 10:00pm

June 6/92 - dawn → owl heard hooting

9:00 am → one owl observed looking out of nest hole. It flew out of the cavity after about 2 minutes.

* Quiet peeping-type noises could be heard in the hole once the adult left. We were unable to observe the chicks or count the number "peeping"

NOTES SECTION: (attach separate sheet if needed).

Col. 1) An Northern Pygmy Owl with mouse in claws called at dusk from approx 20 ft. above ground in Lodgepole Pine. Another Owl, presumably ♀, was seen emerging from old woodpecker cavity in dead pine tree about 12 feet above ground and flew out of sight with ♂ in pursuit, still carrying food.

Col. 2) Snipe were winnowing. Starlings were on nest with chicks audible. Canada Geese: 2 pairs sitting on nests.

P.O. BOX 981

Calgary, Alberta T2P 2K4

NOTES SECTION: (attach separate sheet if needed).

Col. 1) LeConte's Sparrow: three separate colonies exist near the North end of property. The 7 represents a minimum number of birds. All were singing. These also heard singing: * 533, 559, 570, 576, 581, 559, 658, 654, 712, 728

Col. 2) Bay-breasted Warbler: Singing in mixed Aspen, L. Pine + White Spruce forest. Unmistakeable. Observed for about 10 minutes at close range at summit of Alder Trail. Duncan is very familiar with this species - seen in Ontario.

Col. 3) Singing: 181, 319, 427, 433, 454, 529, 542, 574, 576, 589, 622, 677, 679, 694, 712. Fledged feeding young: Ad. Possible breeding: 409 + 412: ♂ R-n. Sapsucker seen in newly excavated cavity in Bob. Poplar. A ♀ Y-b. Sapsucker near by at same time

C.F.N.S.

Bird Record Sheet

Please print information legibly.

- GIVE EXACT LOCATION. Fill in a new column for each location visited.
- List the number of each species seen at each location by sex and/or age where they are determinable, otherwise list total number.
- CIRCLE all nesting records and elaborate in "Notes Section" at the end.
- Provide more details in "Notes Section" on species marked with an ASTERISK '*' (ie: field marks, habitat, voice, behavior).

Bird Record Sheet

Please print information legibly.

- GIVE EXACT LOCATION. Fill in a new column for each location visited.
- List the number of each species seen at each location by sex and/or age where they are determinable, otherwise list total number.
- CIRCLE all nesting records and elaborate in "Notes Section" at the end.
- Provide more details in "Notes Section" on species marked with an ASTERISK '*' (ie: field marks, habitat, voice, behavior).

Bird Record Sheet

Please print information legibly.

- o GIVE EXACT LOCATION. Fill in a new column for each location visited.
- o List the number of each species seen at each location by sex and/or age where they are determinable, otherwise list total number.
- o CIRCLE all nesting records and elaborate in "Notes Section" at the end.
- o Provide more details in "Notes Section" on species marked with an ASTERISK '*' (ie: field marks, habitat, voice, behavior).

NOTES SECTION: (attach separate sheet if needed).

* Within the 14 Tundra Swans there was one individual with a Bewick's Swan Type of Facial Pattern. This swan exhibited a "Dark" Facial Pattern as per "a comparative analysis of the Bill markings of Whistling and Bewick's Swans and a discussion of the taxa." Auk Vol. 97 No 4. Oct 1980 page 697.

CLARK'S GREBE

Seen by Brian Ritchie, Bob Carroll and Peter Taylor, Astotin L., (off beach), Elk Island N.P., AB June 5/92.

— Transcription of notes made by PT immediately after observation, without ref. to field guides.

— Significantly smaller than W. Grebe, and paler overall; especially, whiter on flanks, with just a little gray wash towards the rear. Bill orange, distinct from greenish yellow of W. Grebe. White lores & narrow white strip separating the eyes from the black cap. Crest seemed less pronounced than on W. Grebe. Black strip down back of neck narrower than in W. Grebe.

— ~~Obse~~ Observed at 200–300 m with 20x scope in good light; associating with ~30 W. Grebes.

Also seen that day: 6 ♂ Cinnamon Teal around S & W shores of Beaverhill Lake (mainly in nearby sloughs & marshes). (P.T. only).

RECORD FORM
FOR
UNUSUAL BIRD SIGHTINGS

ENTERED 19 June 01 DR gsg
PROOFED 26 June 01 DR gsg

Please enclose original field notes or copy of notes. Please delay reference to books until sketches and description complete.

Species: Mew Gull Date: Oct 22, 1992 ~~topm~~

Number: 2 Age: Sex:

Locality (Exact information if possible): sand bars on Bow River, Inglewood Bird Sanctuary, Calgary

Time: 5:30 - 6 pm Length of time observed:

Observer: Tom & Carol Bishop

Other Observers:

Who first saw bird?:

Who first identified bird?:

Optical equipment used: 33 X & 50 X C90 scope

Distance to bird:

Weather/Light conditions: good backlight

Was the bird photographed?:

Comparison species present: 250 Ring-billed Gulls

Experience with the species:

Voice and /or call notes: not heard

Was a field guide used while the bird was under observation?: ___ If so how do you think it might have influenced your decision?:

Habitat discussion :

Behavior:

Are you 100% certain of the identification?: ____ Are others 100% certain:

How were similar species eliminated?:

See original field sketch (over)

920621

DESCRIPTION: Write a detailed description. If you are not familiar with all of the terms used to describe a bird see your field guide topography page and try to describe each part of the unusual bird. Get as much information down as possible as to shape, colour, patterns, unique features, etc. SKETCH the bird and show as much detail as possible.

Signature:

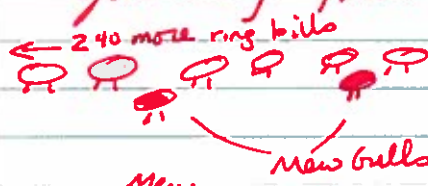
Address:

Date prepared:

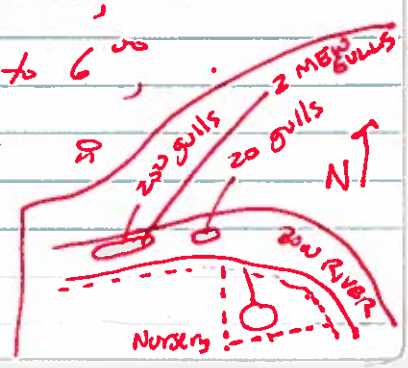
Telephone:

seen with good backlight, at 33X and 50X, "C90" scope

2 gulls with 250 ring bill gulls, they all flew in gradually from 5^{30} to 6^{00},



New (Gull not heard)



C.F.N.S.

Bird Record Sheet

Please print information legibly.

- GIVE EXACT LOCATION. Fill in a new column for each location visited.
- List the number of each species seen at each location by sex and/or age where they are determinable, otherwise list total number.
- CIRCLE all nesting records and elaborate in "Notes Section" at the end.
- Provide more details in "Notes Section" on species marked with an ASTERISK '*' (ie: field marks, habitat, voice, behavior).
