NOTES: (attach separate sheet if needed)

Col 2 * YRWA – 0611 – 1 Male singing in large shelterbelt with many spruce. Bird heard first & then seen @ 40m with 10x40 Zeiss. 2.2 km W of Buffalo.

Col 3 * YRW – 1 soaring west-northwestly 5.5 km N of Carmichael in riparian thicket along Red Deer R. @ 1330

Col 3 * SOA – ♂ – perched out onto top of dead poplar, also 5.5 km N of Carmichael in riparian woods. This bird was found several hours earlier by Malcolm & Joan McDonald. Unmistakable through 10x40 Zeiss @ 50m in bright 1330 prairie sunshine. Wow! Photos taken.

Bird Record Sheet

Please print information legibly.

- o GIVE EXACT LOCATION. Fill in a new column for each location visited.
- o List the number of each species seen at each location by sex and/or age where they are determinable, otherwise list total number.
- o CIRCLE all nesting records and elaborate in "Notes Section" at the end.
- o Provide more details in "Notes Section" on species marked with an ASTERISK '*' (ie: field marks, habitat, voice, behavior).

SUBMITTER: RD DICKSON

ADDRESS: 5-2303 22 St NW Calgary

PHONE:

SEND TO: C.F.N.S. - Bird Records
P.O. BOX 981
Calgary, Alberta T2P 2K4

NOTES SECTION: (attach separate sheet if needed).

Col 1 - Both owls seen within 50m of one another in the area W of Hwy 22 known as "The Dikes". Both were hunting. One flew across Hwy 22 and resumed hunting along grass right of way.
Col 2 - Eagle, Ravens, magpies and coyote were after near the carcass of a cow.
Col 3 - Snow Buntings perched on and around large straw/hay bales lined up in farmyard.

Bird Record Sheet

ENTERED August 30/93 JEK

PROOFED Sept 7 93 DAY

Please print information legibly.

- o GIVE EXACT LOCATION. Fill in a new column for each location visited.
- o List the number of each species seen at each location by sex and/or age where they are determinable, otherwise list total number.
- o CIRCLE all nesting records and elaborate in "Notes Section" at the end.
- o Provide more details in "Notes Section" on species marked with an ASTERISK '*' (ie: field marks, habitat, voice, behavior).

Calgary, Alberta T2P 2K4

NOTES SECTION: (attach separate sheet if needed).

Col 2 - Pine Grosbeaks included 1 adult Male

Col 3 Owl flew across road and landed on a fence post, then flew up into a snag when I turned around and approached it. Headlights were on, Oh my car which may have been a factor. It was after daybreak.

Bird Record Sheet

Please print information legibly.

- GIVE EXACT LOCATION. Fill in a new column for each location visited.
- List the number of each species seen at each location by sex and/or age where they are determinable, otherwise list total number.
- CIRCLE all nesting records and elaborate in "Notes Section" at the end.
- Provide more details in "Notes Section" on species marked with an ASTERISK '*' (ie: field marks, habitat, voice, behavior).

NOTES SECTION: (attach separate sheet if needed).

Col 2 Pileated Woodpecker calling frequently.
Great Gray Owl perched on fenceposts at 0730, hunting.
Col 3 Gyrfalcon perched on fencepost beside road. Gray morph adult.
Had blood stains on lower belly, presumably its last prey. When disturbed by passing traffic, bird flew strongly to E where it disappeared over wooded ridge.

P.O. BOX 981
Calgary, Alberta T2P 2K4

NOTES SECTION: (attach separate sheet if needed).

Mar19 House Finch apparently an immature male. Heavy streaking on ~~[illegible]~~ belly, faint orange on forehead and rump and upper breast areas. Dull Brown face & cap. Mostly light brown on belly with heavy lengthwise dark brown streaking. Back strongly patterned in brown on brown. Very aggressive toward any House Sparrows which would perch nearby. Fought rather than eat at feeder.

Mar21 Finch singing strongly from high perch in crabapple trees in front yard. Song was energetic, multi-note phrases and warbles and one raspy mid section. Probably first successful overwintering House Finch in Calgary. Had been reported by Jean & Rodger Dunn earlier this month. Sings most mornings in temps as low as -20°C.

C.F.N.S.

Bird Record Sheet

Please print information legibly.

- GIVE EXACT LOCATION. Fill in a new column for each location visited.
- List the number of each species seen at each location by sex and/or age where they are determinable, otherwise list total number.
- CIRCLE all nesting records and elaborate in "Notes Section" at the end.
- Provide more details in "Notes Section" on species marked with an ASTERISK '*' (ie: field marks, habitat, voice, behavior).

NOTES SECTION: (attach separate sheet if needed).

Col 1 Golden Eagles 23 includes 14 adults, 3 immatures and 6 unknown age.

Col 2 Golden Eagles 49 includes 39 adults, 3 immatures and 2 unknown age

Bald Eagles were 1 adult, 2 white bellies and 1 first year.

Col 3 Bald Eagles included 5 adults + 1 white belly

Golden Eagles were not all aged but none were seen to be immatures. Coming over Pigeon Mtn + Mt. McGillivra

Sharpshinned Hawk was seen at peak of Crowsnest Mtn.

Gulls were migrants heading downstream. Canada Geese were migrants heading east at mountain height. Merlins were local birds rather than migrants - travelling along valley bottom.

NOTES SECTION: (attach separate sheet if needed).

Col 1 – Bald Eagles were 16 immatures + 29 adults. Golden Eagle total was of 6 adults, 1 immature, 1 unknown. One Goshawk had a full crop. Red-tailed Hawk total included 1 dark morph with a reddish tail and a "Harlan's" nicklea. This may be an intergrade. Redtails went NE, rather than parallel to ridges as did the eagles. Sharpshins were too far away to determine age. Not included were 2 small accipiters which could have been Sharpy/Cooper's. Prairie Falcons were the resident pair. Waxwings were in 3 different flocks.

Bird Record Sheet

Please print information legibly.

- GIVE EXACT LOCATION. Fill in a new column for each location visited.
- List the number of each species seen at each location by sex and/or age where they are determinable, otherwise list total number.
- CIRCLE all nesting records and elaborate in "Notes Section" on species marked with an ASTERISK '*' (ie: field marks, habitat, voice, behavior).

Calgary, Alberta T2P 2K4

NOTES SECTION: (attach separate sheet if needed).

Col 1 One swan was still in dusky juvenal plumage. Killdeer were standing on ice.
Col 2 - Bald Eagle (1 adult / 1 subadult (whitish head)
Col 3 - Two pairs without young, the other pair with one dusky young apparently the same grouping as on April 8. Pond still mostly ice-covered. Most swans carried leeches on their belly areas.

NOTES SECTION: (attach separate sheet if needed).

Col 2 Redhead was Harlan's race adult. Glenbow Lake has been dry for most springs in the past decade. Water appeared to be about 20cm deep.

Col 3 Two of the adult swans had metal CWS/USF+W leg bands but not neck collars. The geese and ducks were scavenging dredged up material from the swans. One swan chased a goose away from a feeding area. Slough still 80% ice covered.

GOOD LUCK

C.F.N.S.

Bird Record Sheet

Please print information legibly.

- o GIVE EXACT LOCATION. Fill in a new column for each location visited.
- o List the number of each species seen at each location by sex and/or age where they are determinable, otherwise list total number.
- o CIRCLE all nesting records and elaborate in "Notes Section" on species marked with an ASTERISK '*' (ie: field marks, habitat, voice, behavior).

SUBMITTER: R D DICKSON

ADDRESS: 5-2303 22 ST NW Calgary

PHONE:

SEND TO: C.F.N.S. - Bird Records
P.O. BOX 981
Calgary, Alberta T2P 2K4

NOTES SECTION: (attach separate sheet if needed).

Col 1 - Three ~~swans~~ were immatures. Pond has a thin band of open water at one end.

Col 2 - ~~Bald Eagle~~ was a subadult (4th year). ~~[illegible]~~ adult in [illegible] marsh. This was not the same bird as on April 10. This had a red tail.

C.F.N.S.

SUBMITTER: RD DICKSON

ADDRESS: 5-2303 22 St NW Calgary

PHONE:

SEND TO: C.F.N.S. - Bird Records
P.O. BOX 981
Calgary, Alberta T2P 2K4

NOTES SECTION: (attach separate sheet if needed).

Col 1 Golden Eagles were 1 adult + 1 immature. All eagle were flying but not chasing the waterfowl.

Col 2 Shrike was perched on willow beside road.

[illegible]

C.F.N.S.

Bird Record Sheet

Please print information legibly.

- GIVE EXACT LOCATION. Fill in a new column for each location visited.
- List the number of each species seen at each location by sex and/or age where they are determinable, otherwise list total number.
- CIRCLE all nesting records and elaborate in "Notes Section" at the end.
- Provide more details in "Notes Section" on species marked with an ASTERISK '*' (ie: field marks, habitat, voice, behavior).

SEND TO: C.F.N.S. - Bird Records
P.O. BOX 981
Calgary, Alberta T2P 2K4

NOTES SECTION: (attach separate sheet if needed).

Col 1 - Also saw 1 mink at beaverlodge where the Canada geese were nesting. It was not able to get at eggs.

Col 3 - Redhead Ducks were displaying to each other. Hudsonian Godwits were feeding in shallow pond. One was pretty (highly) marked. The other had the delicate duck plumage (brown) & did not seem to fly, although A Dunn did just before we arrive. This had been scared up by the Peregrine, which returned a few minutes later

C.F.N.S.

Bird Record Sheet

Please print information legibly.

- GIVE EXACT LOCATION. Fill in a new column for each location visited.
- List the number of each species seen at each location by sex and/or age where they are determinable, otherwise list total number.
- CIRCLE all nesting records and elaborate in "Notes Section" at the end.
- Provide more details in "Notes Section" on species marked with an ASTERISK '*' (ie: field marks, habitat, voice, behavior).

SUBMITTER: RD DICKSON

ADDRESS: 5-2303 22 St NW Calgary

PHONE:

SEND TO: C.F.N.S. - Bird Records
P.O. BOX 981
Calgary, Alberta T2P 2K4

NOTES SECTION: (attach separate sheet if needed)

Col 1 - Swallows were feeding on insect hatch at manmade impoundment of Grand Valley creek. Seemed like a lot of Barn Swallows, given that nearest buildings were 1km away.

Col 2 - Red-tailed Hawk harassed by raven. Vireo was Eastern Bue

C.F.N.S.

Bird Record Sheet

Please print information legibly.

- o GIVE EXACT LOCATION. Fill in a new column for each location visited.
- o List the number of each species seen at each location by sex and/or age where they are determinable, otherwise list total number.
- o CIRCLE all nesting records and elaborate in "Notes Section" at the end.
- o Provide more details in "Notes Section" on species marked with an ASTERISK '*' (ie: field marks, habitat, voice, behavior).

Calgary, Alberta T2P 2K4

NOTES SECTION: (attach separate sheet if needed).

Col1- Getting fairly dark under cloudy skies. Barred Owl sitting on bare branch near trunk of aspen tree, being harassed by Robins. Apparently not concerned about them or me.
LeConte's Sparrow in hayfield.
Col2 - LeConte's flew to willow shrub. Grey cheek patch, Orangey yellow upper breast, side of throat and supercilium which extended to nape. Thick black lines lengthwise over crown. Whitish throat + belly. Very short forked tail. Streaked brown back. No song.
Col 3 - Owl sitting on fencepost apparently hunting. Dark overcast.

C.F.N.S.

SUBMITTER: Ross Dickson

ADDRESS: 5-2303 22 St NW Calgary

PHONE:

SEND TO: C.F.N.S. - Bird Records
P.O. BOX 981
Calgary, Alberta T2P 2K4

NOTES SECTION: (attach separate sheet if needed).

Col 1 - ~~Common Goldeneye~~ included 1 female with 7 downy young less than 3 days old. ~~Catbird~~ near Jeffries pond where a nest was located in 1992. This bird had a leg band.

Col 2 - Breeding Bird Survey.

~~Northern Shoveler~~ all males, loafing on Pearl Lake (1st lake W of highway near Dowling Lake).

P.K. 1990

C.F.N.S.

Bird Record Sheet

Please print information legibly.

- GIVE EXACT LOCATION. Fill in a new column for each location visited.
- List the number of each species seen at each location by sex and/or age where they are determinable, otherwise list total number.
- CIRCLE all nesting records and elaborate in "Notes Section" at the end.
- Provide more details in "Notes Section" on species marked with an ASTERISK '*' (ie: field marks, habitat, voice, behavior).

PHONE:

SEND TO: C.F.N.S. - Bird Records
P.O. BOX 981
Calgary, Alberta T2P 2K4

NOTES SECTION: (attach separate sheet if needed).

Col 1 - Near all of the ducks were males. The area had received 4 inches of rain in past 2 weeks so water levels were higher than usual for this time of year.

Col 2 - Only one adult seen. Nest in caragana shelterbelt. Young were about 2 days old. Felt cool. Second adult may have deserted. Nest at precarious angle probably due to recent heavy rains. Visible adult used tower guywires for perch for hunting in mown grass.

C.F.N.S.

Bird Record Sheet

Please print information legibly.

- GIVE EXACT LOCATION. Fill in a new column for each location visited.
- List the number of each species seen at each location by sex and/or age where they are determinable, otherwise list total number.

P.O. BOX 981
Calgary, Alberta T2P 2K4

NOTES SECTION: (attach separate sheet if needed).

Col 3 - ~~Shrike~~ hunting from various perches. Very windy so that it hunkered down while on fenceposts or on wires. Never saw it go to nest but it covered a wide hunting area. Lark Bunting often on edge of road either picking up small seeds or gravel in company with sparrows. All flew away whenever the Redwinged Blackbird would alight nearby. There were also another 4 males and 1 female Lark Bunting nearby but not in "sparrow flock".

C.F.N.S.

Bird Record Sheet

Please print information legibly.

SUBMITTER: RD DICKSON

ADDRESS: 5-2303 22 ST NW Calgary

PHONE:

SEND TO: C.F.N.S. - Bird Records
P.O. BOX 981
Calgary, Alberta T2P 2K4

NOTES SECTION: (attach separate sheet if needed).

Col 1 - Robin carrying food (to nest).
Col 2 Common Nighthawks were actively hunting in bright sunshine. There may have been 3 altogether.
Col 3 - 2 males plus 1 female Northern Shoveler with 6 young. There were 2 Say's Phoebe nests - under eaves of buildings so there may have been more than 3 adults.
Col 3 - Burrowing Owl hunting from burrow in middle of pasture.

C.F.N.S.

Bird Record Sheet

Please print information legibly.

- GIVE EXACT LOCATION. Fill in a new column for each location visited.
- List the number of each species seen at each location by sex and/or age where they are determinable, otherwise list total number.
- CIRCLE all nesting records and elaborate in "Notes Section" at the end.
- Provide more details in "Notes Section" on species marked with an ASTERISK '*' (ie: field marks, habitat, voice, behavior).

NOTES SECTION: (attach separate sheet if needed).

Col 1 – Eagle probably subadult, perched on roadside fencepost.

Col 2 – Shrike hunting from wires near farm buildings surrounded by caragana/manitoba maple shelterbelt. Flew to maple.

Col 3 – Ferruginous light morph flew in from north, calling frequently. Large nest in dead tree south of road. Mourning Doves were apparently 2 pairs plus one other. Some aggression shown to one bird by scuffle on tree branch then a brief chase.

P.O. BOX 981
Calgary, Alberta T2P 2K4

NOTES SECTION: (attach separate sheet if needed).

Col 1 - Shrike perched on willow in Silverberry/rose filled pasture.
Col 2 - Shrike hunting from fenceposts rather than from nearby wire. Nearest potential "nest" was 0.5km or more to S.
Col 3 - Shrike usually perched on wire. Adult male. Could not determine if there was a nest or if so, where since no suitable nest bush exists within a kilometre.
Avocet adults on road with 2 tiny babies. Not much future given speed of local pickup trucks. There is a nearby dugout and irrigation canal which is where Night-Herons were. Western Kingbird pair appeared to be moving through.

C.F.N.S.

Calgary, Alberta T2P 2K4

NOTES SECTION: (attach separate sheet if needed).

Col 1 - Two adult Shrikes actively hunting from power line

Col 2 - One Thrasher was singing from dead tree branch near east path south of storm sewer outlet. Twenty minutes later 2 Thrashers come in tree beside west path at PetroCanada barrier. One bird was very vocal until I approached, then it flew east across lagoon. Probably same bird. I lost sight of the second and silent bird - probably a female.
One Common Goldeneye ♀ with 8 young and one ♀ with 6 young.

Col 3 - On nest in aspen grove on East facing slope. About 200m from pond near McEwan Drive NW. Blackbirds were near pond, acting agitated so nesting nearby is likely.

SEND TO: C.F.N.S. - Bird Records
P.O. BOX 981
Calgary, Alberta T2P 2K4

NOTES SECTION: (attach separate sheet if needed).

Col 1 - First yellow warbler. Fledgling still covered by gray down. Stubby yellow tail & flight feathers

Col 2 - Nests include 18 with 3 young, 17 with 4 young. One nest included 1 hood of fledglings. One total does not include fledglings which could be heard but were not counted, in three different locations. LeConte's Sparrows were in the central field

DOUBLE

RECORD FORM

FOR

UNUSUAL BIRD SIGHTINGS

Please enclose original field notes or copy of notes. Please delay reference to books until sketches and description complete.

Species: CLARK'S NUTCRACKER Date: JULY 7, 1993

Number: ONE Age: ADULT Sex: ? MALE ?

Locality (Exact information if possible): BACK YARD OF #615 VERONA DR. N.W.

Time: 8:P.M. Length of time observed: ABOUT 30 SECONDS AT REST AND WHILE FLYING FROM SPRUCE TO BIRCH AND BACK

Observer: JOAN BECK

Other Observers: JIM CHARLESTON

Who first saw bird?: SIMULTANEOUS - J. CHARLESTON HEARD THE BIRD FIRST ON JULY 6 THEN AGAIN DURING THE DAY & EVENING OF JULY 7 - ONLY ONE SIGHTING, THOUGH

Who first identified bird?: JOAN BECK

Optical equipment used: NONE

Distance to bird: ABOUT 12 FEET

Weather/Light conditions: CLEAR - SUNLIGHT - SUN SHINING DIRECTLY ON BIRD

Was the bird photographed?: NO

Comparison species present: ROBIN - BIRD OBSERVED WAS SLIGHTLY LARGER THAN ROBIN

Experience with the species: NONE

Voice and /or call notes: A ROLLING "KR" SOUND, THEN DRAWN OUT AH-AH-AH, CALL ON LAST NOTES HAD A GONK-LIKE KRAAAAH QUALITY

Was a field guide used while the bird was under observation?: NO If so how do you think it might have influenced your decision?:

Habitat discussion : IT FLEW FROM TALL SPRUCE INTO BIRCH TREE WHERE IT WAS OBSERVED, THEN RETURNED TO DEEP BRANCHES OF SPRUCE TREE.

Behavior:

Are you 100% certain of the identification?: YES Are others 100% certain:

How were similar species eliminated?: IT WAS A BIRD NEITHER OF US HAD EVER HEARD OR SEEN BEFORE. WE THOUGHT IT MUST BE A MEMBER OF THE JAY FAMILY - PERHAPS A GREY JAY OR A WHISKEY JACK. WHEN I RETURNED HOME AND CHECKED MY "BIRDS OF NORTH AMERICA" GUIDE, TURNING TO THE PAGE OF JAYS, THE CLARK'S NUTCRACKER TOOK MY EYE IMMEDIATELY AS THE BIRD I HAD SEEN EARLIER. WHEN I READ THE DESCRIPTION OF ITS CRY, I WAS EVEN MORE CONVINCED OF ITS IDENTIFICATION, BUT AMAZED THAT IT WAS SO FAR OUT OF ITS NORMAL TERRITORY.

ENTERED October 6/93 DEK

PROOFED Oct 1993 OD

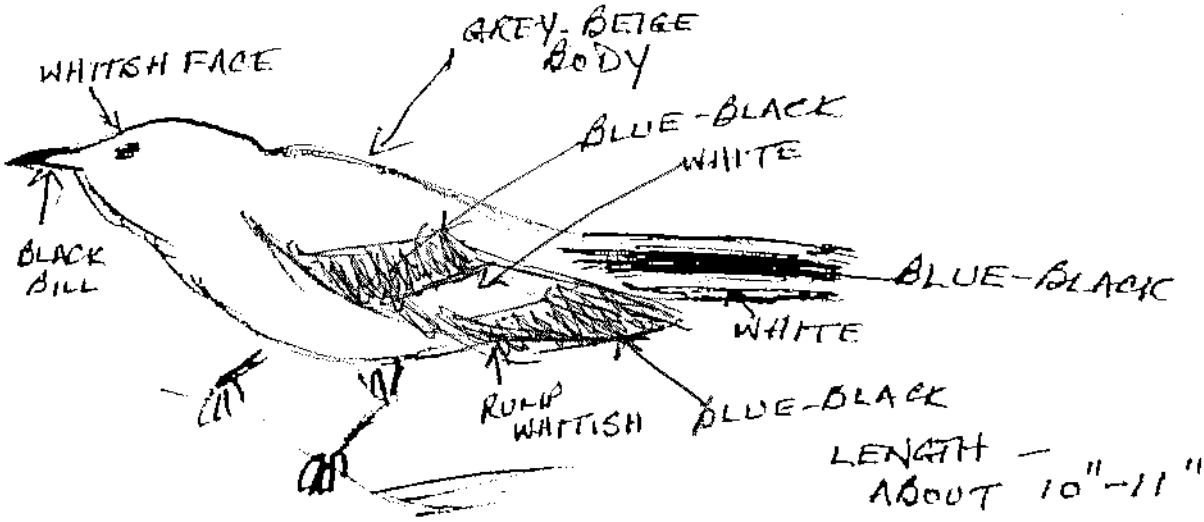
DESCRIPTION: Write a detailed description. If you are not familiar with all of the terms used to describe a bird see your field guide topography page and try to describe each part of the unusual bird. Get as much information down as possible as to shape, colour, patterns, unique features, etc. SKETCH the bird and show as much detail as possible.

First of all, we heard its cry. I immediately asked my friend, "What on earth kind of bird was that?" He remarked that he didn't know, but he had heard it for a couple of days and hadn't seen it yet. Just then, the bird flew out of the tall spruce tree across the lane. We were looking east with the sun behind us so we got a good look at it as it landed in a smallish, sparsely-leafed birch tree.

The bird was somewhat larger than a robin, had a sleek rather than rounded head, with a pointed black or dark beak; it was grey-beige all over except for a whitish face and rump, and its wings had three wide, very distinctive bars -- blue-black, white, then blue-black. I say blue-black because when it was in flight I had the impression of navy-blue feathers. In fact, when I saw it fly out of the spruce tree, I remarked "Oh, it's blue!". That's why we thought at first it was some sort of blue jay, until it landed in the birch tree and we got a clear view of it. The dark colour wasn't the greenish-black iridescence of a magpie's feathers. The tail was similar to the wings - blue-black & white.

As we observed it for the brief period, we tried carefully to move a little closer, but it flew back deep into the upper branches of the tall spruce and we didn't see it again. We left the garden a few minutes later.



Signature: M. J. Beck

Bird Record Sheet

Please print information legibly.

- GIVE EXACT LOCATION. Fill in a new column for each location visited.
- List the number of each species seen at each location by sex and/or age where they are determinable, otherwise list total number.
- CIRCLE all nesting records and elaborate in "Notes Section" at the end.
- Provide more details in "Notes Section" on species marked with an ASTERISK '*' (ie: field marks, habitat, voice, behavior).

Watched, amazed, as a single crow drove off a fully mature Swainson's Hawk.
The hawk was silent but the crow made an enormous racket for one bird.
Heard a number (3, I think) of interesting bird calls and songs, in a single step along Sibbald Trail, from a small mixed-wooded grove across from a slough. Still unable to identify using a birdsong tape and three bird books.
Got a brief glimpse of a small, mostly black, red-crowned Woodpecker on the side of a fence post. Can't identify.

CHECK-LIST OF THE BIRDS OF THE CALGARY REGIO

FIFTH EDITION, REVISED JANUARY 1986

Compiled by: W.W. Smith, D.M. Collister, H.W. Pinel, C.R. Wershler, and R.M. Wers

DATE 13 May 1993 TIME 10:30 14:30 WEATHER Clear Warm→N Wind

LOCALITY Rocky Ridge Rd. north to Aspen Drive (from Hwy 1A west) west to Twelve Mile Coulee Rd. south to Hwy 1A w

OBSERVER(S) Joanne Jamieson 245-8932

This list comprises 330 species, including 207 nesting species, which have been recorc for the area within 50 miles of the city of Calgary, Alberta. Names follow the A.O. Check-list of North American Birds (Sixth Edition, 1983), and have been updated as *Auk* 102: 680-686 (1985).

Species marked with an asterisk (*) definitely nest in the area, while those designa by a cross (+) formerly nested.

The occurrence and abundance of the different bird species was based on the of the compilers. Unless otherwise indicated, the migratory and summer abundance: a or the spring and fall migratory abundance are the same. The occurrence and abunda of each species is indicated by letters as follows:

Column 1 - Seasonal Occurrence

R - Permanent Resident
I - Introduced Resident
S - Summer Resident or Visitor
M - Migrant
  sM - Spring Migrant
  fM - Fall Migrant
W - Winter Visitor
A - Accidental. Recorded, but due to normal range not expected to occur again.

Column 2 - Abundance

Occurring in such numbers that an experienc observer at the appropriate time and place mi identify in a single day the following:
A - Abundant - Over 500
C - Common - 101 to 500
F - Fairly Common - 26 to 100
U - Uncommon - 6 to 25
S - Scarce - 1 to 5
R - Rare - Known from a single or occasio record. Not necessarily recorded every yea
E - Erratic - Numbers fluctuate greatly fr season to season or year to year.

Number of birds				Number of birds

	Pacific	M R				
	Common*	S U	2	Grebe, Pied-billed*		S U

* Pied-billed and Horned Grebes
First year since I began patrolling this particular route in early 1989 that I have seen any grebes at all. These three pairs gave the impression of settling in to nest so will keep a regular watch for them.

Considerable numbers of different bird songs, especially along Rocky Ridge Road, but was unable to sort through them. Perhaps someone familiar with many birdcalls would like to take an early morning trip along this route.
Would be interested in learning of the results.

LOCALITY Hwys 1A+1 east and Langdon Slough

OBSERVER(S) Joanne Jamieson 245-8932

This list comprises 330 species, including 207 nesting species, which have been recor for the area within 50 miles of the city of Calgary, Alberta. Names follow the A.O. Check-list of North American Birds (Sixth Edition, 1983), and have been updated as *Auk* 102: 680-686 (1985).

Species marked with an asterisk (*) definitely nest in the area, while those designa by a cross (+) formerly nested.

The occurrence and abundance of the different bird species was based on th of the compilers. Unless otherwise indicated, the migratory and summer abundance; a or the spring and fall migratory abundance are the same. The occurrence and abunda of each species is indicated by letters as follows:

Column 1 - Seasonal Occurrence

R - Permanent Resident
I - Introduced Resident
S - Summer Resident or Visitor
M - Migrant
  sM - Spring Migrant
  fM - Fall Migrant
W - Winter Visitor
A - Accidental. Recorded, but due to normal range not expected to occur again.

Column 2 - Abundance

Occurring in such numbers that an experien observer at the appropriate time and place mi identify in a single day the following:
A - Abundant - Over 500
C - Common - 101 to 500
F - Fairly Common - 26 to 100
U - Uncommon - 6 to 25
S - Scarce - 1 to 5
R - Rare - Known from a single or occasio record. Not necessarily recorded every yea
E - Erratic - Numbers fluctuate greatly fr season to season or year to year.

CHECK-LIST OF THE BIRDS OF THE CALGARY REGIO

FIFTH EDITION, REVISED JANUARY 1986

Compiled by: W.W. Smith, D.M. Collister, H.W. Pinel, C.R. Wershler, and R.M. Wers

DATE Sun. 16 May 1993 TIME 21:45 1915 – WEATHER Cloudy Calm Cool

LOCALITY Rocky Ridge Rd → Aspen Dr → 1/2 Mile Coulee Rd

OBSERVER(S) Joanne Jamieson 245-8932

This list comprises 330 species, including 207 nesting species, which have been recor for the area within 50 miles of the city of Calgary, Alberta. Names follow the A.O Check-list of North American Birds (Sixth Edition, 1983), and have been updated a *Auk* 102: 680-686 (1985).

Species marked with an asterisk (*) definitely nest in the area, while those designa by a cross (+) formerly nested.

The occurrence and abundance of the different bird species was based on th of the compilers. Unless otherwise indicated, the migratory and summer abundance: a or the spring and fall migratory abundance are the same. The occurrence and abunda of each species is indicated by letters as follows:

Column 1 - Seasonal Occurrence

R - Permanent Resident
I - Introduced Resident
S - Summer Resident or Visitor
M - Migrant
  sM - Spring Migrant
  fM - Fall Migrant
W - Winter Visitor
A - Accidental. Recorded, but due to normal range not expected to occur again.

Column 2 - Abundance

Occurring in such numbers that an experien observer at the appropriate time and place mi identify in a single day the following:

A - Abundant - Over 500
C - Common - 101 to 500
F - Fairly Common - 26 to 100
U - Uncommon - 6 to 25
S - Scarce - 1 to 5
R - Rare - Known from a single or occasio record. Not necessarily recorded every yea
E - Erratic - Numbers fluctuate greatly fr season to season or year to year.

Bird Record Sheet (7)

Please print information legibly.

- o GIVE EXACT LOCATION. Fill in a new column for each location visited.
- o List the number of each species seen at each location by sex and/or age where they are determinable, otherwise list total number.
- o CIRCLE all nesting records and elaborate in "Notes Section" at the end.
- o Provide more details in "Notes Section" on species marked with an ASTERISK '*' (ie: field marks, habitat, voice, behavior).

Bird Record Sheet (10)

Please print information legibly.

- GIVE EXACT LOCATION. Fill in a new column for each location visited.
- List the number of each species seen at each location by sex and/or age where they are determinable, otherwise list total number.
- CIRCLE all nesting records and elaborate in "Notes Section" at the end.
- Provide more details in "Notes Section" on species marked with an ASTERISK '*' (ie: field marks, habitat, voice, behavior).

NOTES SECTION: (attach separate sheet if needed).

ON NESTS: Killdeer=1 Cat at nest with 1 chick (visible) Tree Swallow=1 nestbox
Mtn Bluebird=1 "
Red-Tailed Hawk=1 perched near nest (same as previously noted).
Pied-billed Grebe=1 plainly visible on nest of yellow reeds at edge of vegetation
Spotted Sandpiper=1 consistently present since 13 May 93
(could no longer see Coot (Col) on nest due to reed growth.
Ruddy Ducks on one slough - all 4 were female and, though appeared fully grown & mature, remained clustered together. There was one male on another pond not far away.

PHONE: 245-8932

SEND TO: C.F.N.S. - Bird Records
P.O. BOX 981
Calgary, Alberta T2P 2K4

NOTES SECTION: (attach separate sheet if needed).

NESTING: Red-necked Grebes - very obvious out in open water. Some still building, some breeding, some doing both
N. Shovelers & Ruddy Ducks - saw males only so assumed females to be on nests.

C.F.N.S.

Bird Record Sheet (13)

Please print information legibly.

- GIVE EXACT LOCATION. Fill in a new column for each location visited.
- List the number of each species seen at each location by sex and/or age where they are determinable, otherwise list total number.
- CIRCLE all nesting records and elaborate in "Notes Section" at the end.
- Provide more details in "Notes Section" on species marked with an ASTERISK '*' (ie: field marks, habitat, voice, behavior).

NOTES SECTION: (attach separate sheet if needed).

NESTING: (1) Pied-billed Grebe = 1 still on visible nest (as noted 7 June 93)
= 1 (Slough further west) - bird swimming back & forth to reeds carrying food (?)
(2) Red-tailed Hawk = 1 as noted previous reports - still can't see if there are young.
(3) Sorns - hear calls from consistent locations. Cannot see nests but have seen birds.
(4) Coots - in consistent locations, usually see singly. One family of 6 very recently hatched - all chicks have extremely bright orange faces, very eye-catching.
(5) Red-winged Blackbirds - busy feeding young who could be heard.
(6) Spotted Sandpiper = 1 Consistently present, still haven't located nest

SEND TO: C.F.N.S. - Bird Records
P.O. BOX 981
Calgary, Alberta T2P 2K4

NOTES SECTION: (attach separate sheet if needed).

NESTING: Red-necked Grebes = 2 on very exposed nests in open water, West Bay + 1 chick seen

High winds and frequent showers all day which slackened late afternoon, consequently much more activity, then but ran out of time.

ROADKILL: Gadwall = 1 male (Hwy 566) / Brewer's Rusty Blackbird = 1 juv.? (Inv. Rd) → weather ?

Black-crowned Night Heron: none in usual places; yellow-fronted bird roosting in bushes on east side of West Bay but ultimately forced off by high winds

C.F.N.S.

Bird Record Sheet (15)

Please print information legibly.

- GIVE EXACT LOCATION. Fill in a new column for each location visited.
- List the number of each species seen at each location by sex and/or age where they are determinable, otherwise list total number.
- CIRCLE all nesting records and elaborate in "Notes Section" at the end.
- Provide more details in "Notes Section" on species marked with an ASTERISK '*' (ie: field marks, habitat, voice, behavior).

SUBMITTER: Joanne Jamieson

ADDRESS:

PHONE: 245-8932

SEND TO: C.F.N.S. - Bird Records
P.O. BOX 981
Calgary, Alberta T2P 2K4

NOTES SECTION: (attach separate sheet if needed).

Weather noteworthy: strong winds with intermittent rains, quite cool. Still a surprising amount of activity involving young, as well as singing.

C.F.N.S.

Bird Record Sheet (16)

Please print information legibly.

- GIVE EXACT LOCATION. Fill in a new column for each location visited.
- List the number of each species seen at each location by sex and/or age where they are determinable, otherwise list total number.
- CIRCLE all nesting records and elaborate in "Notes Section" at the end.
- Provide more details in "Notes Section" on species marked with an ASTERISK '*' (ie: field marks, habitat, voice, behavior).
