P.O. BOX 981
Calgary, Alberta T2P 2K4

NOTES SECTION: (attach separate sheet if needed).

* Observed Osprey dive toward lake but it pulled up before hitting lake. Observed also on Sept. 2

Observed adult regurgitating food to fledgling young. (I saw this happening in Wales this year also. Tim Myres mentioned that Goldfinch are one of the few passerines that do this and therefore do not need to feed their young as often. I talked to him in Jersey on July 11 + 12.)

C.F.N.S.

Bird Record Sheet

Please print information legibly.

- GIVE EXACT LOCATION. Fill in a new column for each location visited.
- List the number of each species seen at each location by sex and/or age where they are determinable, otherwise list total number.
- CIRCLE all nesting records and elaborate in "Notes Section" at the end.
- Provide more details in "Notes Section" on species marked with an ASTERISK '*' (ie: field marks, habitat, voice, behavior).

RECORD FORM

FOR

UNUSUAL BIRD SIGHTINGS

ENTERED Sept-11/95 FEK
PROOFED Sept 12 95 OD DF

Please enclose original field notes or copy of notes. Please delay reference to books until sketches and description complete.

Species: Northern Parula Date: 15/8/95

Number: 1 Age: ? Sex: imm or F or pass M in winter plum

Locality (Exact information if possible): Inglewood Bird Sanctuary between two south bridges

Time: 1000 ? Length of time observed: Seen twice 2nd time for 2-3 min

Observer: Olga Droppo

Other Observers: Dena Farquharson & 2 other ladies

Who first saw bird?: O Droppo

Who first identified bird?: O Droppo

Optical equipment used: Zeiss 10x40 B

Distance to bird: 30 ft at nearest point

Weather/Light conditions: clear

Was the bird photographed?: no

Comparison species present: Warbling Vireo, Yellow Warbler, Tennessee Warbler

Experience with the species: none

Voice and /or call notes: none

Was a field guide used while the bird was under observation?: No If so how do you think it might have influenced your decision?:

Habitat discussion : Part time in Betula occidentalis & flux to Populus balsamifera

Behavior: feeding

Are you 100% certain of the identification?: yes Are others 100% certain:

How were similar species eliminated?:

On sheet 950136

950132

DESCRIPTION: Write a detailed description. If you are not familiar with all of the terms used to describe a bird see your field guide topography page and try to describe each part of the unusual bird. Get as much information down as possible as to shape, colour, patterns, unique features, etc. SKETCH the bird and show as much detail as possible.

Yellow across the back was most noticable field mark.

Observed broken eye ring, yellow chest but throat was light, almost white except for yellow flecks.

No outstanding color change in head, back & wings except for yellow across upper back.

Wingbars were not visible from my angle of watching although the bird was constantly moving.

Signature: Olga Droppo

Bird Record Sheet

Please print information legibly.

- GIVE EXACT LOCATION. Fill in a new column for each location visited.
- List the number of each species seen at each location by sex and/or age where they are determinable, otherwise list total number.
- CIRCLE all nesting records and elaborate in "Notes Section" on species marked with an ASTERISK '*' (ie: field marks, habitat, voice, behavior).

Bird Record Sheet

ENTERED Sept. 11/95 JEK

DOUBLE CHECKED Sept 12 '95 DB, PBF

Please print information legibly.

- GIVE EXACT LOCATION. Fill in a new column for each location visited.
- List the number of each species seen at each location by sex and/or age where they are determinable, otherwise list total number.
- CIRCLE all nesting records and elaborate in "Notes Section" at the end.
- Provide more details in "Notes Section" on species marked with an ASTERISK '*' (ie: field marks, habitat, voice, behavior).

RECORD FORM

FOR

UNUSUAL BIRD SIGHTINGS

ENTERED October 2/95 JEK

PROOFED Oct 3/95 D&F

Please enclose original field notes or copy of notes. Please delay reference to books until sketches and description complete.

Species: Black-chinned Hummingbird Date: July 26 & 27 1995

Number: ONE Age: ? Sex: Male

Locality (Exact information if possible): ON MY HUMMINGBIRD FEEDER OUTSIDE MY KITCHEN - 41 SUNRISE WAY, PRIDDIS GREENS

* Time: Length of time observed: EACH VISIT WAS BRIEF - EXCEPT SEE BELOW

Observer: LORRAINE SMITH

Other Observers: MEMBERS OF CFNS - 15 CAME, ABOUT 5 SAW BIRD

Who first saw bird?: LORRAINE SMITH

Who first identified bird?: " "

Optical equipment used: TASCO BINOCULARS 7x35mm

Distance to bird: 12 ft. to feeder - about 8 ft to bough where it sat

Weather/Light conditions: BRIGHT SUNLIGHT

Was the bird photographed?: PERHAPS BY A MEMBER OF CFNS

Comparison species present: FEMALE RUFOUS, FEMALE CALLIOPE

Experience with the species: HAVE HAD A FEEDER SINCE 1979

Voice and /or call notes:

Was a field guide used while the bird was under observation?: ✓ If so how do you think it might have influenced your decision?: ONLY CONFIRMED MY OBSERVATION BOOK USED: BIRDS OF WESTERN CANADA - A. TAVERNER (Book was no illustration)

Habitat discussion :

Behavior:

Are you 100% certain of the identification?: YES Are others 100% certain: YES

How were similar species eliminated?: THE DARK BLACK COLLAR AND THE DISTINCT WHITE BAND UNDER THE COLLAR WERE TOTALLY DIFFERENT FROM ANY OTHER HUMMER I HAVE EVER SEEN. WITH BINOCULARS I COULD SEE WHITE SPOTS BEHIND EACH EYE (NOT VISIBLE WITH NAKED EYE)

*July 26 - 12:10 pm
12:45 pm (Then sat on spruce bough about 3 min - 8 ft. away)
1:50
5:55

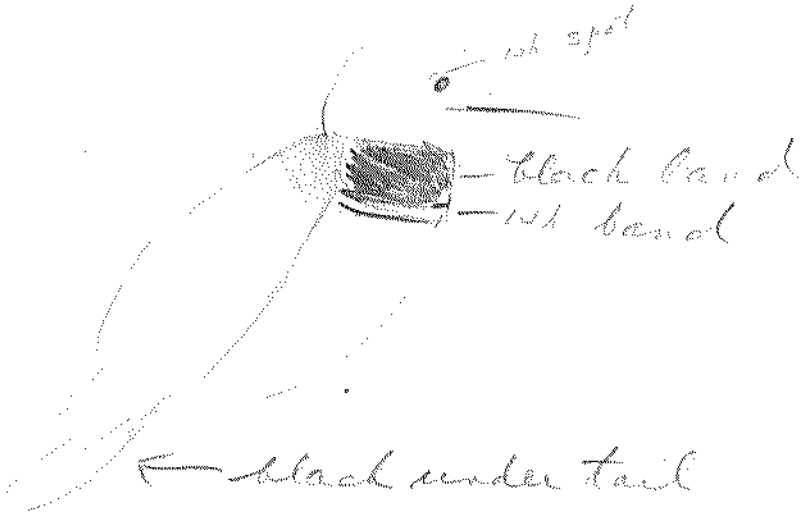
July 27 - 2 pm
4:20 pm

WAS ALSO SEEN 10 AM - JULY 30 BY A MAN FROM NOVA SCOTIA

950138

DESCRIPTION: Write a detailed description. If you are not familiar with all of the terms used to describe a bird see your field guide topography page and try to describe each part of the unusual bird. Get as much information down as possible as to shape, colour, patterns, unique features, etc. **SKETCH** the bird and show as much detail as possible.

About the size of a rufous. Deep black collar with a line of white at base of collar. Grey-white breast but white line very distinct. Grey-green back. Under side of tail light black. Behind each eye is a white spot.



Signature: Lorraine D. Smith

Address: Box 51, Site 1, RR 1 - Priddis, Ab. T0L1W0

Date prepared: August 3, 1995

Telephone: 403-931-3707

Bird Record Sheet

Please print information legibly.

- GIVE EXACT LOCATION. Fill in a new column for each location visited.
- List the number of each species seen at each location by sex and/or age where they are determinable, otherwise list total number.
- CIRCLE all nesting records and elaborate in "Notes Section" at the end.
- Provide more details in "Notes Section" on species marked with an ASTERISK '*' (ie: field marks, habitat, voice, behavior).

G+H Owl disturbed by car, flew to fence, attacked by ~~Owl~~ Kestrel, investigated
by Magpies
Starlings, Red Wings & Brewers in a mixed flock

RECORD FORM

FOR

UNUSUAL BIRD SIGHTINGS

Nov-13/95 FEK
Nov 14 '95 OD, DoF

Please enclose original field notes or copy of notes. Please delay reference to books until sketches and description complete.

Species: Sharp-tailed Sandpiper Date: Sept 25 '95

Number: 1 Age: juv Sex:

Locality (Exact information if possible): Namaka Lake, SE share of N lake

Time: 3:00 Length of time observed: 3:30

Observer: O Droppo

Other Observers: M Parker, D Farquharson

Who first saw bird?: O Droppo

Who first identified bird?: O Droppo

Optical equipment used: 8 X 40B Zeiss binoculars

Distance to bird: 20 to 40 feet varied

Weather/Light conditions: Sunny; sun at our backs

Was the bird photographed?: no

Comparison species present: Sanderlings 25+; Semipalmated Sandpiper 2; Pectoral 4 Solitary 1; Blk-b Plover 4; Lbolden Pl 2 ~~[illegible]~~ Redsmi Woodwit 1

Experience with the species: Seen once before

Voice and /or call notes: no

Was a field guide used while the bird was under observation?: No If so how do you think it might have influenced your decision?:

Habitat discussion : Muddy edge of lake

Behavior: feeding scared into flight a couple of times with a flock.

Are you 100% certain of the identification?: ____ Are others 100% certain: ____

How were similar species eliminated?:

950146

DESCRIPTION: Write a detailed description. If you are not familiar with all of the terms used to describe a bird see your field guide topography page and try to describe each part of the unusual bird. Get as much information down as possible as to shape, colour, patterns, unique features, etc. SKETCH the bird and show as much detail as possible.

Calgary, Alberta T2P 2K4

NOTES SECTION: (attach separate sheet if needed).

Heard a number (at least 4) of other calls & songs → unidentified. Surprising lack of sound & activity for this area on a hot day at end of May. No frogs heard! though lots of water.

Species: Anna's Hummingbird Date: Sept 14/95

Number: 1 Age: imature Sex: Male

Locality (Exact information if possible): 148 - Deerbrook Rd. S.E.

Time: 11:15 AM Length of time observed: 30 minutes

Observer: John R Riddell

Other Observers: Coreen Reuser

Who first saw bird?: Coreen Reuser

Who first identified bird?: J. R. Riddell

Optical equipment used: Binoculars

Distance to bird: 20 feet

Weather/Light conditions: +15°C sunny

Was the bird photographed?: NO

Comparison species present: None

Experience with the species: First observed in 1976 in Lake View, many subsequent observations

Voice and /or call notes: Musical song even I could hear from Mayda Tree

Was a field guide used while the bird was under observation?: NO If so how do you think it might have influenced your decision?: The same.

Habitat discussion : ~~Ar~~ Artificial feeder, domestic shrubbery

Behavior: Feed, perch, sing, frequent flights

Are you 100% certain of the identification?: Yes Are others 100% certain: That up to them

How were similar species eliminated?: pollution + neglect, habitat distruction

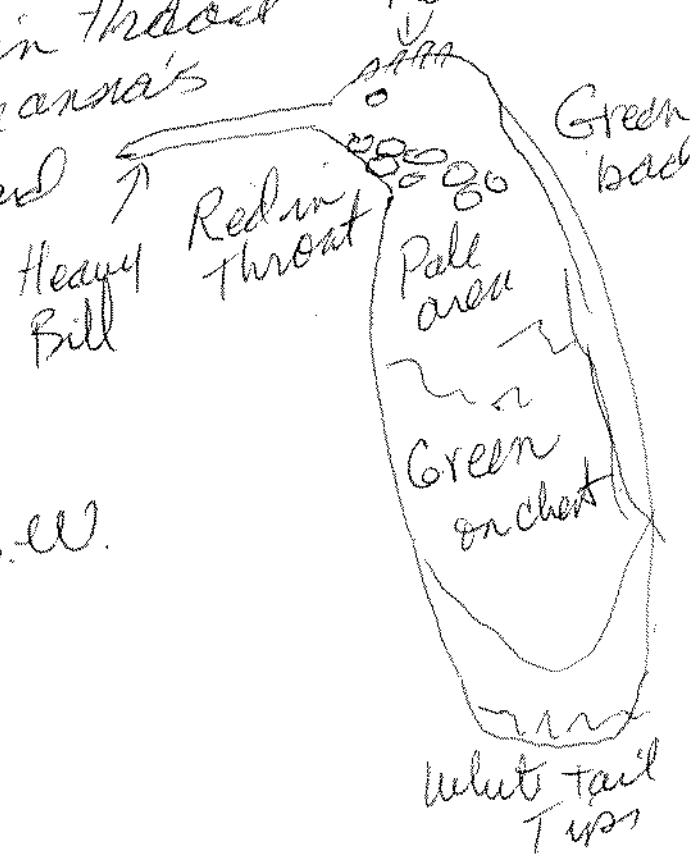
Costa's size much smaller and they tend to irridesce purple as Calliope.

950148

DESCRIPTION: Write a detailed description. If you are not familiar with all of the terms used to describe a bird see your field guide topography page and try to describe each part of the unusual bird. Get as much information down as possible as to shape, colour, patterns, unique features, etc. **SKETCH** the bird and show as much detail as possible.

Corcoran - described a bird with red coloured throat, singing from perch in tree. Most of Hummers long gone in Sept. When she described the singing I thought immediately of a male Anna's.

Description - as soon as the bird came to the feeder the large size noted, as well as a good deal of red in gorget, semblance of gorget trailing down sides of throat to upper chest. Crown colour not observable at feeder because of sun angle, but as soon as bird landed in Mayday Tree, crown irridescent red, not purple as in Costa's which I have observed in Arizona. This bird much more red in throat and crown than 1976 Male Anna's observed at Kay Nikulas yard in Lake View



Signature: J. M. R. Riddell
Address: 3033 1st Str. S.W.
Date prepared: Sept 27/95

Species: Rufous-necked Stint (Calidris ruficollis) Date: September 19, 1995

Number: 1 Age: adult Sex:

Locality (Exact information if possible): Frank Lake (~6 mi E of High River). South side of dike seperating 2 major basins UTM: 307500 E - 5604000 N

Time: 1400-1430h ; 1520-1545h Length of time observed: 55 minutes

Observer: Ray M. Wershler

Other Observers: (on subsequent days - Robert Storms, Malcolm + Joan McDonald etc)

Who first saw bird?: Ray M. Wershler

Who first identified bird?: Ray M. Wershler

Optical equipment used: Zeiss 10x40B Binoculars ; Bausch + Lomb Zoom 15-60 mm telescope

Distance to bird: 30 to 75 metres

Weather/Light conditions: sunny, bright

Was the bird photographed?: No

Comparison species present: Semipalmated (2) and Western (1) Sandpipers ; Sanderlings

Experience with the species: Many seen in non-breeding plumage in Australia

Voice and /or call notes: N/A

Was a field guide used while the bird was under observation?: No If so how do you think it might have influenced your decision?:

Habitat discussion : shallow water to shore of muddy offshore bar.

Behavior: Feeding with other peeps - no obvious feeding differences.

Are you 100% certain of the identification?: Yes Are others 100% certain:

How were similar species eliminated?: The bird, being in breeding condition (plumage) stood out from the surrounding peeps. The colour (rufous) of the face and breast, in combination with the black legs and short black bill immediately told me I was looking at a stint. I first noticed the bird while watching a Western (C. mauri) Sandpiper. The bird had a much shorter, stubby bill - very straight. In direct comparison with Semipalmated (C. pusilla) and Western Sandpipers, the bird appeared to be the same size. Nearby Sanderlings (C. alba) were significantly larger than all 3 species of 'peeps'. Semipalmated Sandpipers never get close to the colour of this bird. Western Sandpipers can be colourful but don't have bright rufous faces or upper breasts - plus, they have a much longer, decurved bill. The only very similar species, the Spoonbill Sandpiper (Eurynorhynchus pygmeus), has a much longer bill with a spatulate end. I viewed this bird with the express intention of making sure that the bill wasn't a 'spoon-bill'. Rufous-necked Stints, in this plumage, are much brighter than 'Spoon-bills'.

950149

DESCRIPTION: Write a detailed description. If you are not familiar with all of the terms used to describe a bird see your field guide topography page and try to describe each part of the unusual bird. Get as much information down as possible as to shape, colour, patterns, unique features, etc. SKETCH the bird and show as much detail as possible.

Bill - short, black, thick, straight
Crown - some faint dark streaks; reddish (light) in colour
Face - bright rufous except for near the bill - a small amount of white above & below bill. No eye line or other stripes noticeable on face.
Belly - white, unmarked
Breast - a few dark marks (streaks) below bright rufous colouration extending to just below bill.
Neck & Back - quite noticeably rufous; a bit of white on back as well (mantle)
Throat - reddish
Feet - unable to see if toes were webbed.
In flight - no noticeable differences between the 3 peeps.

The bird didn't appear short-legged or longer-winged. If this bird wasn't in such unusual plumage for a peep I would have definitely overlooked it.

On a visit 2 days later (Sept. 21) up to 3 western Sandpipers were observed but no Rufous-n. Stint or Semipalmated Sandpipers could be located.

I can't figure out why this peep was still in breeding plumage at this late a date. None of the other shorebirds were even close. Also, most other records from W. N Am (B.C/Calif) have been from July and August (also birds in breeding plumage).

Robert Storms, who viewed the bird the following day (Sept 20) is also convinced that this bird was a Rufous-n. Stint. Hopefully, he too has written down his observations.

There is no doubt in my mind that this species has been correctly identified - I have been doing shorebird surveys for many years and have had the opportunity to view - thousands of peeps.

Bird Record Sheet

Nov 13/95 JEK
Nov 14 95 OD, DoF

Please print information legibly.

- GIVE EXACT LOCATION. Fill in a new column for each location visited.
- List the number of each species seen at each location by sex and/or age where they are determinable, otherwise list total number.
- CIRCLE all nesting records and elaborate in "Notes Section" at the end.
- Provide more details in "Notes Section" on species marked with an ASTERISK '*' (ie: field marks, habitat, voice, behavior).

RECORD FORM

FOR

UNUSUAL BIRD SIGHTINGS

Nov. 13/95 JEK
Nov 14 '95 OR, MEF

Please enclose original field notes or copy of notes. Please delay reference to books until sketches and description complete.

Species: RUFOUS-NECKED STINT Date: 20 SEPTEMBER 1995

Number: 1 Age: ADULT Sex: –

Locality (Exact information if possible): FRANK LAKE, ON SOUTH SIDE OF CENTRAL DIKE.

Time: 9.45 Length of time observed: 2 ½ HOURS

Observer: ANDREW SLATER

Other Observers: BOB STORNS, CEDRIC & ROBIN HITCHON

Who first saw bird?: RAY WERSHLER

Who first identified bird?: RAY WERSHLER

Optical equipment used: 20x TELESCOPE

Distance to bird: 25 METRES

Weather/Light conditions: OVERCAST, SNOW FLURRIES

Was the bird photographed?: NO

Comparison species present: SANDERLING, SEMIPALMATED SANDPIPER

Experience with the species: NONE

Voice and /or call notes: NONE

Was a field guide used while the bird was under observation?: YES If so how do you think it might have influenced your decision?: NOTES MADE WITHOUT BOOK BIRD WAS EXTREMELY SIMILAR TO PICTURE OF SUMMER PLUMAGE IN SOLDEN SUITE, ALLOWING FOR POOR LIGHT

Habitat discussion : MUD FLATS

Behavior: FED CONSISTENTLY FLUTTERED WINGS SEVERAL TIMES.

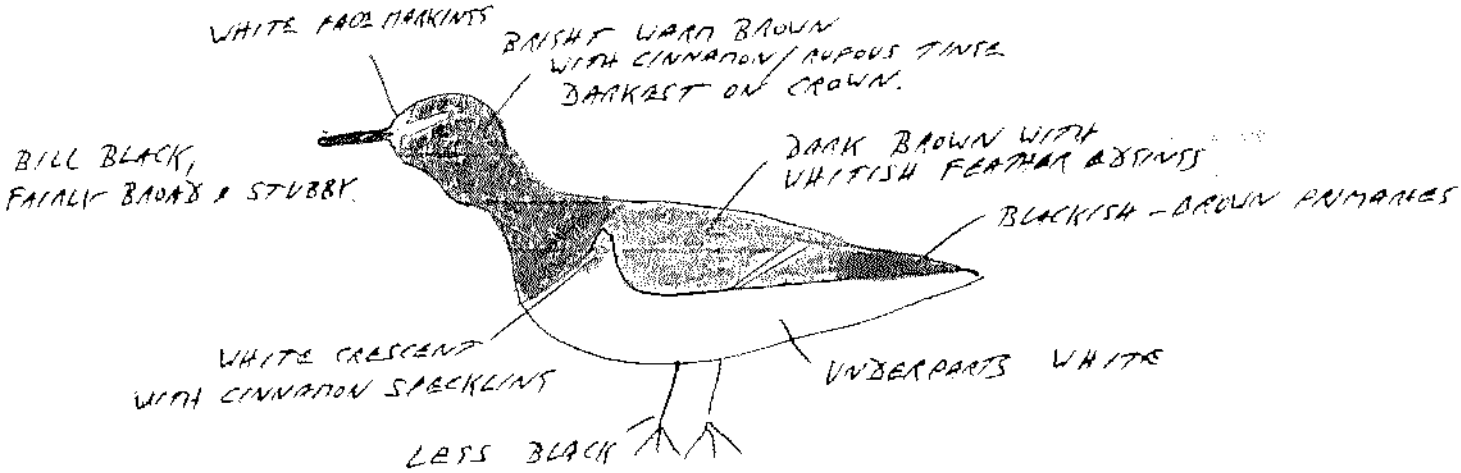
Are you 100% certain of the identification?: YES Are others 100% certain: YES

How were similar species eliminated?: SANDERLING BY SMALLER SIZE LACK OF WHITE BROAD WING-BAR, BILL SMALLER IN PROPORTION.
LEAST SANDPIPER BY BLACKISH LEGS LARGE SIZE ABSENCE OF STRIPES ON BACK, BILL TOO BROAD & STRAIGHT
SEMIPALMATED SANDPIPER BY LARGER SIZE LESS STUBBY APPEARANCE, TOO MUCH WARM BROWNISH CINNAMON ON HEAD, NECK, BREAST
BAIRDS SANDPIPER – WINGS WERE SAME LENGTH AS TAIL, SO DID NOT HAVE THE STRETCHED OUT APPEARANCE OF BAIRDS; BILL TOO SHORT AND BROAD; HEAD, THROAT, BREAST AND BACK TOO DARK, NOT BUFFY.

#950153

DESCRIPTION: Write a detailed description. If you are not familiar with all of the terms used to describe a bird see your field guide topography page and try to describe each part of the unusual bird. Get as much information down as possible as to shape, colour, patterns, unique features, etc. **SKETCH** the bird and show as much detail as possible.

BIRD WAS WATCHED IN POOR LIGHT, WITH FREQUENT SNOW FLURRIES, SO BRIGHTNESS OF COLOURS WAS MUCH REDUCED.



BIRD WAS FEEDING ON MUD-FLATS WITH SEVERAL SANDERLINGS AND ONE SEMI-PALMATED SANDPIPER. APPEARED ABOUT 15% SMALLER THAN SANDERLINGS AND ABOUT 5% LARGER THAN SEMI-PAL. WAS MORE STRETCHED-OUT THAN THE SEMI-PAL, BUT NOT SO STRETCHED-OUT AS A BAIRD'S.

HEAD, THROAT, NECK AND BREAST ~~[illegible]~~ APPEARED TO BE WARM BROWN, QUITE BRIGHT, WITH CINNAMON/RUFOUS TINGE. BACK WAS DARK BROWN WITH WHITISH FEATHER EDGINGS AND A NARROW WHITE WING-BAR. PRIMARIES WERE BLACKISH-BROWN.

UNDERPARTS WERE WHITE, WITH A VERY DISTINCT CUT OFF LINE ON LOWER BREAST.

A WHITISH CRESCENT ~~[illegible]~~ BETWEEN BREAST AND WINGS, WITH SOME CINNAMON SPECKLING.

WHITE AREAS ON FACE, CHIN AND STRIPE ABOVE EYE

LESS BLACKISH

BILL BLACKISH, FAIRLY STOUT. ABOUT SAME PROPORTIONS TO BIRD AS BOTH SANDERLINGS AND SEMI-PAL.

HEAD, NECK, BREAST COLOUR WAS DARKEST ON THE CROWN.

Signature: ANDREW SLATER

Address: 152 OAKSIDE CIRCLE S.W. CALGARY.

Date prepared: 20 SEPT. 1995

Telephone: 251-6288

Species: SHARP-TAILED SANDPIPER Date: 26 SEPT 1995

Number: 1 Age: JUV Sex:

Locality (Exact information if possible): EAST END OF NANAKA LAKE

Time: 9.00 Length of time observed: 1 HOUR

Observer: ANDREW SLATER

Other Observers: —

Who first saw bird?: OLGA DROPPO

Who first identified bird?: OLGA DROPPO

Optical equipment used: 20x TELESCOPE

Distance to bird: 15 METRES

Weather/Light conditions: BRIGHT SUNSHINE

Was the bird photographed?: NO

Comparison species present: PECTORAL SANDPIPER, SANDERLING

Experience with the species: NONE

Voice and /or call notes: NONE

Was a field guide used while the bird was under observation?: NO If so how do you think it might have influenced your decision?:

Habitat discussion : MUDDY SHORE

Behavior: FEEDING MOST OF TIME. SEVERAL SHORT FLIGHTS

Are you 100% certain of the identification?: YES Are others 100% certain: YES

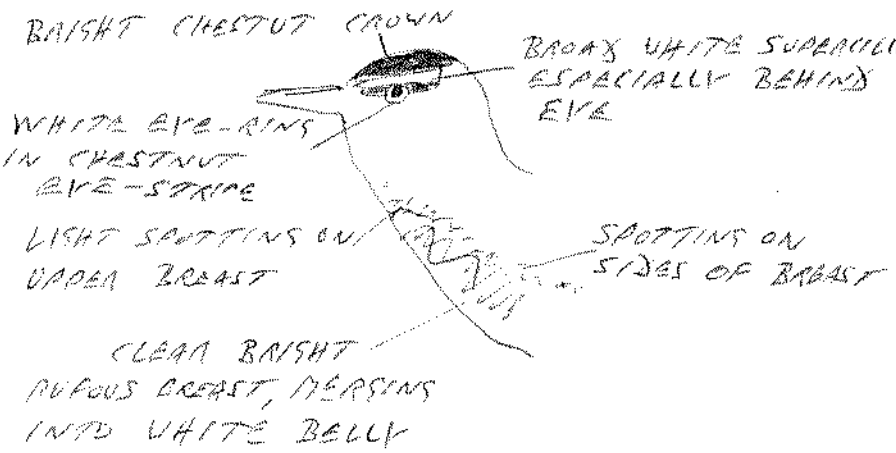
How were similar species eliminated?:
PECTORAL SANDPIPER: THIS BIRD HAD PURE WHITE SUPERCILIUM, ENDING IN BIG WHITE RECTANGLE ABOVE AND BEHIND EYE; ~~BRIGHT~~ EYESTRIPE IN PECTORALS WAS LIGHT BROWN, NARROW. CROWN WAS BRIGHT CHESTNUT WITH DARKER SPOTTING. ON PECTORALS WAS BROWN WITH DARKER SPOTTING. I HAD PROMINENT (AT CLOSE RANGE) WHITE EYERING ~~[illegible]~~ IN BROWN EYE-STRIPE WITH REST OF FACE QUITE WHITISH; PECTORALS FACE WAS UNIFORM ~~[illegible]~~ DARKER BROWN WITH NO EYE-RING. BREAST WAS CLEAR BRIGHT RUFOUS WITH DARK SPOTTING AT SIDES AND LIGHTLY ACROSS UPPER BREAST; PECTORALS HAD HEAVY SPOTTING ALL OVER BUFF BREAST DOWN TO VERY CLEAR BORDER WITH WHITE UNDERPARTS

950154

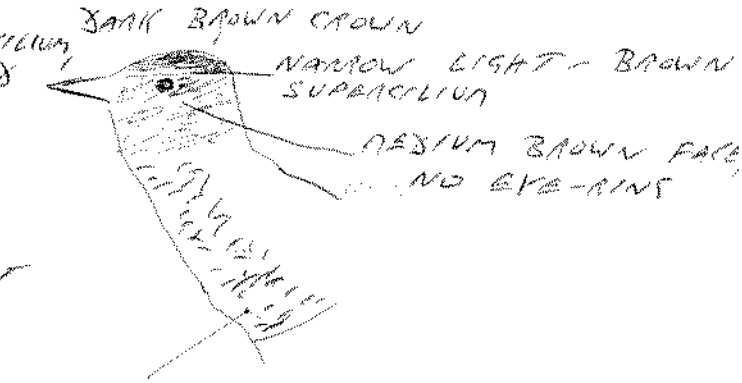
SHARP-TAILED HAD MUCH BRIGHTER CHESTNUT FEATHER-EDGING ON BACK, ESPECIALLY ON FLIGHT FEATHERS, THAN PECTORALS

DESCRIPTION: Write a detailed description. If you are not familiar with all of the terms used to describe a bird see your field guide topography page and try to describe each part of the unusual bird. Get as much information down as possible as to shape, colour, patterns, unique features, etc. **SKETCH** the bird and show as much detail as possible.

SHARP-TAILED



PECTORAL



THE SHARP-TAILED SANDPIPER WAS WITH ABOUT 6 PECTORAL SO SANDERLINGS AND SEVERAL OTHER SHORE-BIRD SPECIES

IT APPEARED ABOUT THE SAME SIZE AND SHAPE AS PECTORALS, LESS VERY GREENISH, FLIGHT PATTERN SIMILAR.

SEE ABOVE AND OVER FOR THE DIFFERENCES

Bird Record Sheet

Nov. 13/95 JEK
Nov 14 '95 OR, RCF

Please print information legibly.

- o GIVE EXACT LOCATION. Fill in a new column for each location visited.
- o List the number of each species seen at each location by sex and/or age where they are determinable, otherwise list total number.
- o CIRCLE all nesting records and elaborate in "Notes Section" at the end.
- o Provide more details in "Notes Section" on species marked with an ASTERISK '*' (ie: field marks, habitat, voice, behavior).

SUBMITTER: MICHAEL ~~GOLDEN~~ BREITENEDER
ADDRESS: 107 SANDARAC WAY NW, CALGARY ALBERTA T3K 2Y4
PHONE: 295-1103

SEND TO: C.F.N.S. - Bird Records
P.O. BOX 981
Calgary, Alberta T2P 2K4

NOTES SECTION: (attach separate sheet if needed).

Column 2: Ferruginous Hawk; sitting in field, rufous back, clean breast, rusty tail, large size (also seen by BOB STORMS, BRIAN ELDER.)

Short-Billed Dowitcher; seen side by side w Long-Billed: rusty back, buffy wash on head, shorter (relatively) bill, tail primarily light coloured (compared to long-billed) on sides, v. faint barring on flanks.

C.F.N.S.

Bird Record Sheet

Nov. 20/95 7EK
Nov 21 95 OD gg

Please print information legibly.

- GIVE EXACT LOCATION. Fill in a new column for each location visited.
- List the number of each species seen at each location by sex and/or age where they are determinable, otherwise list total number.
- CIRCLE all nesting records and elaborate in "Notes Section" at the end.
- Provide more details in "Notes Section" on species marked with an ASTERISK '*' (ie: field marks, habitat, voice, behavior).

NOTES SECTION: (attach separate sheet if needed).

Nov-20 1995 JEK
Nov-21 '95 OB

199

Species: Vaux's Swift Date seen: July 31st

Number: one Age: adult(?) sex: unknown

Locality: seen from trail along south side of Glenmore reservoir
300 metres east of the boat launch area.
Time: 12:30 pm (approx.) Length of time observed: 5 minutes, then 3 m

Observer: Joe Denham

Who first identified the bird? same as above

Are you certain of the identification? no, it may be a Chimney S
it depends on which field guide one uses.
Was a field guide used while the bird was under observati
yes, the National Geographic guide. However this guide wo
lead one to think the bird was a Chimney Swift.
Distance from bird: at one point the bird was quite close
(about 30 metres); some of the time it was high in the sky
Optical equipment used: Bausch & Lomb legacy 10 x 50.

Weather: sunny, sky had a few clouds.

Previous experience: have seen many Vaux's Swifts in
the Vancouver area, from 1991 - 1994. As well, I am
familiar with Black and White-throated Swifts, seen
a few times in BC, and with Chimney Swifts, seen
from 1986-90 in Ontario.
Unfortunately, I did not learn the call of Chimney
Swift, or at least I do not remember (The call is the
easiest way to separate Chimney Swift from Vaux's).

9501

Description: The bird had long wings and a short (almost no) tail. The throat and upper breast was light, but not quite white, and the rest of the bird was brown. It had the "twinkling" flight, as Peters guide calls it, that is unique to swifts.

Although it is difficult to accurately determine size at a distance, the bird seemed a bit on the large side for a Vaux's swift, and lacked a kind of compactness I have seen in Vaux's I have seen in the past.

The bird made a single call at intervals of a few seconds, rather sharp and high-pitched, and fairly lou It may have seemed loud because I usually haven't been so close to Va

Habitat: Large reservoir.

Comparison species present: Bank Swallow, Tree Swallow, Cliff Swallow

How were similar species eliminated: The shape of a swift is very different from any swallow, (long wings short tail) and the flight is distinctive (fluttering wing appear to beat wings alternately).

Name and Address: Joe Denham, 1513 10th St. SW, Calgary T2R 1E8 phone 229-3063

Date of report preparation: Aug. 1st, 1995. signature: J Denham

C.F.N.S.

Bird Record Sheet

Please print information legibly.

- GIVE EXACT LOCATION. Fill in a new column for each location visited.
- List the number of each species seen at each location by sex and/or age where they are determinable, otherwise list total number.
- CIRCLE all nesting records and elaborate in "Notes Section" at the end.
- Provide more details in "Notes Section" on species marked with an ASTERISK '*' (ie: field marks, habitat, voice, behavior).

SEND TO: C.F.N.S. - Bird Records

P.O. BOX 981

Calgary, Alberta T2P 2K4

NOTES SECTION: (attach separate sheet if needed).

C.F.N.S.

Bird Record Sheet

Please print information legibly.

- GIVE EXACT LOCATION. Fill in a new column for each location visited.
- List the number of each species seen at each location by sex and/or age where they are determinable, otherwise list total number.
- CIRCLE all nesting records and elaborate in "Notes Section" at the end.
- Provide more details in "Notes Section" on species marked with an ASTERISK '*' (ie: field marks, habitat, voice, behavior).

Bird Record Sheet

Please print information legibly.

- GIVE EXACT LOCATION. Fill in a new column for each location visited.
- List the number of each species seen at each location by sex and/or age where they are determinable, otherwise list total number.
- CIRCLE all nesting records and elaborate in "Notes Section" at the end.
- Provide more details in "Notes Section" on species marked with an ASTERISK '*' (ie: field marks, habitat, voice, behavior).

Bird Record Sheet

entered 9/Nov 21 '95, D&F
9/Nov 21 '95, OD, DF

Please print information legibly.

- GIVE EXACT LOCATION. Fill in a new column for each location visited.
- List the number of each species seen at each location by sex and/or age where they are determinable, otherwise list total number.
- CIRCLE all nesting records and elaborate in "Notes Section" at the end.
- Provide more details in "Notes Section" on species marked with an ASTERISK '*' (ie: field marks, habitat, voice, behavior).

Bird Record Sheet

entered Nov 21 '95 OD, DGF
Nov 21 95 OD, DGF

Please print information legibly.

- GIVE EXACT LOCATION. Fill in a new column for each location visited.
- List the number of each species seen at each location by sex and/or age where they are determinable, otherwise list total number.
- CIRCLE all nesting records and elaborate in "Notes Section" at the end.
- Provide more details in "Notes Section" on species marked with an ASTERISK '*' (ie: field marks, habitat, voice, behavior).

Unusual Sitting Oct. 7/95

On a warm sunny saturday afternoon, friends, Mary Hirston and Kathleen Rosen and I were travelling west on High # 540, just south of High Rivers.

Soaring over a feedlot where several hundred cattle were feeding, hundreds of crows and thousands of black birds and starlings were collecting we spotted what we thought was a hawk. On further observation we noted the two tone coloring of the wings grey and black, no markings, a longish tail, fingers on the ends of wings. Although the head was small it was not red, denoting turkey vulture immature bird. Leading edges of wings were black, with trailing edges ~~dark~~ grey. The soaring bird was large, eagle size, no flapping of wings but rather it rocked back and forth with the air currents.

ENTERED Jan. 13/96 FEIC
PROOFED

After observation of 20 minutes or so we concluded it had to be none other than an immature turkey vulture.

Thank you, Mary Coughlin

NOTES SECTION: (attach separate sheet if needed).

C.F.N.S.

Bird Record Sheet

Please print information legibly.

- GIVE EXACT LOCATION. Fill in a new column for each location visited.
- List the number of each species seen at each location by sex and/or age where they are determinable, otherwise list total number.
- CIRCLE all nesting records and elaborate in "Notes Section" at the end.
- Provide more details in "Notes Section" on species marked with an ASTERISK '*' (ie: field marks, habitat, voice, behavior).

Bird Record Sheet

ENTERED Jan 13/96 JEK

PROOFED Jan 23 '96 [illegible]

Please print information legibly.

- GIVE EXACT LOCATION. Fill in a new column for each location visited.
- List the number of each species seen at each location by sex and/or age where they are determinable, otherwise list total number.
- CIRCLE all nesting records and elaborate in "Notes Section" at the end.
- Provide more details in "Notes Section" on species marked with an ASTERISK '*' (ie: field marks, habitat, voice, behavior).
