C.F.N.S.
Bird Record Sheet

Please print information legibly.

ENTERED Aug 29/96 pm
PROOFED Sept 3/96 CR

- GIVE EXACT LOCATION. Fill in a new column for each location visited.
List the number of each species seen at each location by sex and/or age where they are determinable, otherwise list total number.
CIRCLE all nesting records and elaborate in "Notes Section" at the end.
Provide more details in "Notes Section" on species marked with an ASTERISK '*' (ie: field marks, habitat, voice, behavior).

C.F.N.S.
Bird Record Sheet

Please print information legibly.

- GIVE EXACT LOCATION. Fill in a new column for each location visited.
o List the number of each species seen at each location by sex and/or age where they are determinable, otherwise list total number.
o CIRCLE all nesting records and elaborate in "Notes Section" at the end.
o Provide more details in "Notes Section" on species marked with an ASTERISK ** (ie: field marks, habitat, voice, behavior).

Bird Record Sheet

ENTERED Feb 16/97 JEC
PROOFED 2/16/97 OR

Please print information legibly.

- GIVE EXACT LOCATION. Fill in a new column for each location visited.
- List the number of each species seen at each location by sex and/or age where they are determinable, otherwise list total number.
- CIRCLE all nesting records and elaborate in "Notes Section" at the end.
- Provide more details in "Notes Section" on species marked with an ASTERISK "*" (ie: field marks, habitat, voice, behavior).

C.F.N.S.
Bird Record Sheet

ENTERED Feb 16/92 JEL
PROOFED March 11/92 OJD

Please print information legibly.

- GIVE EXACT LOCATION. Fill in a new column for each location visited.
List the number of each species seen at each location by sex and/or age where they are determinable, otherwise list total number.
CIRCLE all nesting records and elaborate in "Notes Section" at the end.
Provide more details in "Notes Section" on species marked with an ASTERISK * (ie: field marks, habitat, voice, behavior).

SEND TO: C.F.N.S. - Bird Records

ADDRESS:

P.O. BOX 981

PHONE:

Calgary, Alberta T2P 2K4

NOTES SECTION: (attach separate sheet if needed).

C.F.N.S.
Bird Record Sheet

Please print information legibly.

- GIVE EXACT LOCATION. Fill in a new column for each location visited.
List the number of each species seen at each location by sex and/or age where they are determinable, otherwise list total number.
CIRCLE all nesting records and elaborate in "Notes Section" at the end.
Provide more details in "Notes Section" on species marked with an ASTERISK "*" (ie: field marks, habitat, voice, behavior).

Bird Record Sheet

Please print information legibly.

- GIVE EXACT LOCATION. Fill in a new column for each location visited.
 o List the number of each species seen at each location by sex and/or age where they are determinable, otherwise list total number.
 o CIRCLE all nesting records and elaborate in "Notes Section" at the end.
 o Provide more details in "Notes Section" on species marked with an ASTERISK (*) (ie: field marks, habitat, voice, behavior).

NOTES SECTION: (attach separate sheet if needed).

ENTERED Feb 17/97 2310

Please print information legibly.

- GIVE EXACT LOCATION. Fill in a new column for each location visited.
- List the number of each species seen at each location by sex and/or age where they are determinable, otherwise list total number.
 - CIRCLE all nesting records and elaborate in "Notes Section" at the end.
 - Provide more details in "Notes Section" on species marked with an ASTERISK * (ie: field marks, habitat, voice, behavior).

UNUSUAL BIRD SIGHTINGS

ENTERED June 21 1977 JEL
PROOFED April 8 '97 OR

Please enclose original field notes or copy of notes. Please delay reference to books until sketches and description complete.

Species: PINE WARBLER Date: SEPT. 27/87
Number: 1 Age: IMMATURE Sex: _____
Locality (Exact information if possible): BACKYARD OF 3415 UNDERHILL DR. N.W.
CALGARY, ALTA.
Time: 9:10 - 15' Length of time observed: 3 MINUTES
Observer: R.W. STORMS
Other Observers: RAY WARSHLER
Who first saw bird?: BOTH
Who first identified bird?: RAY WARSHLER
Optical equipment used: 8 x 40 LEITZ TRINOVIDS
Distance to bird: 4 - 8 METERS
Weather/light conditions: SUNNY, ALTHOUGH THE BIRD WAS IN THE SHADE THE
Was the bird photographed?: NO LIGHTING WAS GOOD.
Comparison species present: ORANGE-CROWNED WARBLER
Experience with the species: SEEN IN SPRING IN ONT & IN WINTER IN S.E. U.S.A.
Voice and /or call notes: NONE. ON SEVERAL OCCASIONS.

Was a field guide used while the bird was under observation?: NO If so how do you think it might have influenced your decision?: _____

Habitat discussion: BACKYARD WITH SMALL-MEDIUM TREES & LARGE BUSHES.

Behavior: EXHIBITED MORE DELIBERATE (SLOWER) MOVEMENTS THAN MOST WARBLERS.

Are you 100% certain of the identification?: YES Are others 100% certain: YES

How were similar species eliminated?: AT THIS TIME OF YEAR, BOTH BLACKPOLL & BAY-BREASTED ARE SIMILAR BUT NEITHER HAVE COMPLETELY UNSTREAKED BACKS.

DESCRIPTION: COMPARATIVELY LARGE, DARK BILL. OLIVE-BROWN HEAD WITH A
TRACE OF A DARK EYE LINE. BACK BROWNISH-OLIVE WITH NO STREAKING AT ALL.
UPPER TAIL & WINGS WERE DARK WITH 2 WHITE (BUT SPLIT) WINGBARS THAT WERE
QUITE OBVIOUS. THROAT & CHIN OFF WHITE. PALE YELLOW PATCH, SOMEWHAT OVALAR IN
SHAPE COVERING MOST OF THE UPPER BREAST AREA. BELLY, FLANKS & UNDER TAIL
COVERTS & UNDERTAIL WERE WHITE. LEGS WERE DARK.

The two chickadees that have been around most of the month have found a knot-hole high up under the soffit on the west side of the house. For about two weeks they have spent hours chiselling a hole behind it in the $1\frac{1}{2}$ " solid styrofoam insulation! The past couple of days they've been trying to penetrate a sheet of $\frac{5}{8}$ " plywood which is the finish board on the beam running along the wall at →

RECORD FORM
FOR
UNUSUAL BIRD SIGHTINGS

ENTERED Nov 9 '99 ORJ/ly
PROOFED Nov 9 '99 ORJ

Please enclose original field notes or copy of notes. Please delay reference to books until sketches and description complete.

Species: SPOTTED REDSHANK Date: Sept 19 1987
Number: 1 Age: _____ Sex: _____
Locality (Exact information if possible): Dalesmend Reservoir

Time: about 12:00 pm Length of time observed: saw it 3 time for a total of about 10 min
Observer: Michael Harrison

Other Observers: none

Who first saw bird?: Michael Harrison

Who first identified bird?: Michael Harrison

Optical equipment used: ~~binoculars~~ Spotting Scope 22x75

Distance to bird: 300 feet

Weather/Light conditions: Sunny Bright

Was the bird photographed?: no

Comparison species present: none it had longer legs, same body outline

Experience with the species: never seen it before

Voice and /or call notes: none

Was a field guide used while the bird was under observation?: no If so how do you think it might have influenced your decision?: _____

Habitat discussion: feeding on a mud flat near the shore

Behavior: feeding with a flock of Yellowlegs (lesser Yellowlegs)

Are you 100% certain of the identification?: Yes Are others 100% certain: _____

How were similar species eliminated?: ~~It~~ It ruled out most other shorebirds by the size & the color of the legs. It ~~had~~ had bright red legs, which was very obvious when I saw it. It had white up the back like a Mewitcher. It also had red near the base of the beak. It was a slate gray on the back, ^{on} the chest. It had a white eye line. The wings ~~was~~ were basically gray, ~~with~~ with little speckling of white on the wings. The ~~tail~~ tail was white with horizontal black barring. The flanks were whitish-gray. It seemed to stay near the outer limits of the flock of Yellowlegs. It was in full plumage.

DESCRIPTION: Write a detailed description. If you are not familiar with all of the terms used to describe a bird see your field guide topography page and try to describe each part of the unusual bird. Get as much information down as possible as to shape, colour, patterns, unique features, etc. SKETCH the bird and show as much detail as possible.

← I probably knew that the
L. yellow was in which it was

Associating with, About 2-3 inch tall. The weather conditions
were very good as the sun was behind me. I saw the
redshank feeding with some lesser Yellowlegs, that were
very close by, so I knew the sun was not making
the legs look red. Also the white up the back ruled
out the yellowlegs anyway. The body was too "skim" a bill
for a dowitcher, which were also feeding close-by.

(other data- over)

One robin was in my sisters yard at High River on Dec 29, Dec 31, Jan. 1, 2, 3, 4, 5. This was in George and Hazel Tosh's yard.

On Jan. 28, the radio announcer on the High River station said a lady in the west end of High River had phoned in to report a robin in her yard, in the morning. I wonder if it was the same bird as the Toshs live in that part of the town.

C.F.N.S.
Bird Record Sheet

base print information legibly.

- o GIVE EXACT LOCATION. Fill in a new column for each location visited.
- o List the number of each species seen at each location by sex and/or age where they are determinable, otherwise list total number.
- o CIRCLE all nesting records and elaborate in "Notes Section" at the end.
- o Provide more details in "Notes Section" on species marked with an ASTERISK '*' (ie: field marks, habitat, voice, behavior).

Ruth Wallace - my sister - reports from Worsley that there are good numbers of Ruffed Grouse up there, as well as the Sharp-tailed Grouse. She had five Sharp-tails eating in her yard from Mar. 28 to April 5. They even did their little dance around the trees. One day they stayed all day. She has seen as many as ten out in the garden, which is farther from the house.

Doug.

I am sending this report for June of what I saw in other parts of the province I was at Worceley from June 5th to June 14. The birds ~~at~~ on June 15 were observed at Alberta Beach. — Common Terns 4, Cared Grebe 1, Yellow-headed Blackbirds 10, Purple Martins 10⁺ — nesting in boxes; Northern Orioles 3 and Red-necked Grebes — 2. They are listed on the charts.

From June 18 to June 20 we were at Medicine Hat.

From June 21 to June 26 at Cypress Hills. At Cavan Lake S.E. of Medicine Hat on June 27. A wonderful bird sanctuary, Pelican Cormorants as well as the shore birds. Common Terns and the California Gulls, as well as a huge flock of Canada Geese, the young ones about half grown. Then back to Medicine Hat for the 26, 27, 28 June. There was a Towhee singing loud and clear all day behind my nephews house on the escarpment above Seven Persons Creek. Another one further along so there were probably four

of them right in that one area.

(Cypress Hills Prov. Park was a wonderful place for birds. We were up on the top plateau three times and saw Mountain Bluebirds each time.

The White-crowned Sparrows sing a different song in the park than any that I have heard before. Any that I was able to observe with the binoculars, were the leucophrys race with the black meeting by the eye. I have the song on tape. There is an extra trill in there.

I have about five warbler songs on tape from Worsley that I still need to track down. I think I know what two of them are but I wasn't sure enough to put them on the record.

I still have a lot of work to do to get all the data recorded.

On July 15 I was up on Plateau Mt. recording the flora & fauna - mostly flowers. I did see two Clarks Nutcrackers right up on top, also a robin, a White-crowned sparrow singing and 2 Water Pipits.

Med. Mont
Grand Prairie

Dear Doug.-

I'm afraid I've neglected my records in spots for July. But am getting back on track after my holiday.

The two Clarke's Nuthatches and the two Water Pipits were up on Plateau Mt. on July 15. The 2 Swainson's Thrushes were along the road south of that junction of the road beside the Highwood river. One goes south and the other road goes to Kananashis. That was also on July 15. Haven't seen anything unusual around here this summer. Had three Bluebird families raised in my nest boxes. Correction, four, because the one in the yard raised two families.

The Red-tailed Hawks and Kestrels were raised in the woods to the south of me so I probably saw them every day.

For the first time a young loon was raised on the dam in the quarter to the north of me. N.E. 9:21:3:W5.

The adults have been around for a few

General Delivery
Millarville, Alta
Nov. 9 1907.

Dear Doug.---

My sister at Worsley, Peace River district, reports two robins at her place on Oct 31.

I haven't seen one here for a long time. While looking for my lost dog south of Turner Valley, several people told me about seeing Bluebirds, even after the two in my report on Oct. 9. I don't have the exact dates on those reports. The two that I saw were in that district, out of P.R. 52.

The Bald Eagle was in the S.E. corner of P.R. 52. A mature bird.

As ever

Janet MacKay.

Bird Record Sheet

Please print information legibly.

ENTERED Apr 17/02 Jan
PROOFED Apr 18/02 CHJ jss

- GIVE EXACT LOCATION. Fill in a new column for each location visited.
List the number of each species seen at each location by sex and/or age where they are determinable, otherwise list total number.
CIRCLE all nesting records and elaborate in "Notes Section" at the end.
Provide more details in "Notes Section" on species marked with an ASTERISK '*' (ie: field marks, habitat, voice, behavior).
