BIRD RECORD SHEET

Date: March 13, 1990

Time: 0945 to 1200

Observers: R D DICKSON
S E Alexander

Location: See other side of this sheet
High River to Longview

Species Bald Eagle

Numbers 1-10 were all adults

11 was a Bald eagle by flight pattern
and shape but age could not be
determined due to distance and light conditions

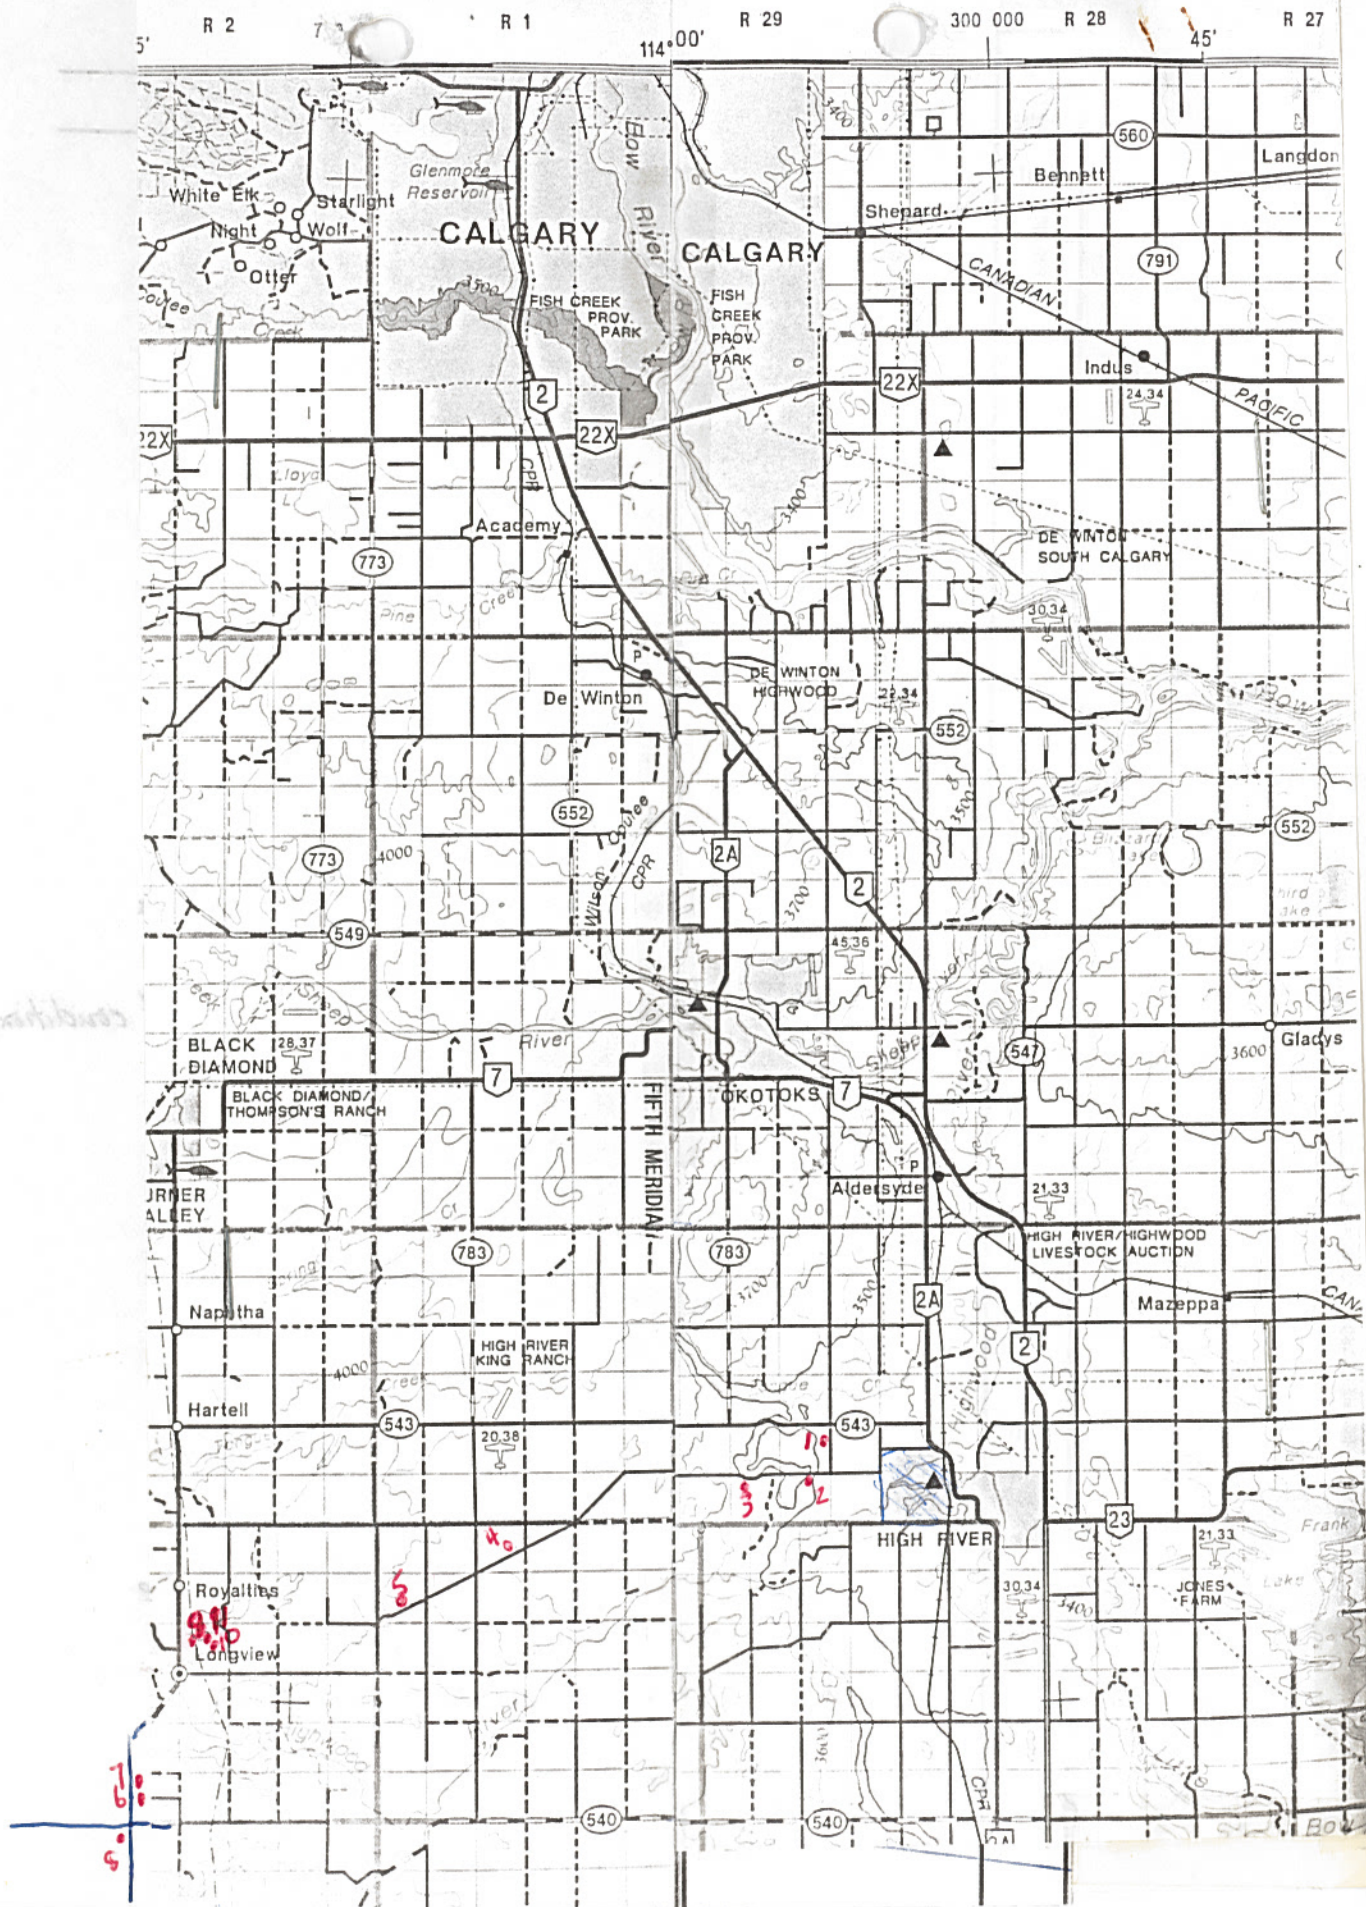

Numbers 4, 5, 8, 9, 10, 11 were seen in flight

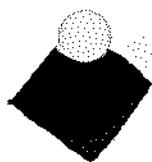

Numbers 1, 3 were perched in trees

Numbers 2, 6, 7 were perched on fence posts

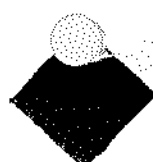

Number 3 was considerably smaller than any
of the others - possibly adult male.

We saw small numbers of Horned Larks (30 in all)
along this route, singing or fighting but no other birds
other than Magpies and Ravens which I didn't count. We
could find no other Bald Eagles anywhere on the road
back through Turner Valley + Millarville
